Radical Enlightenment Philosophy And The Making Of Modernity 1650 1750:

Radical Enlightenment Jonathan Irvine Israel, 2001 Readership Readers with an interest in the European Enlightenment intellectual and cultural historians scholars and students of philosophy **Radical Enlightenment** Jonathan Irvine Israel, 2001 This is a study of the origins and rise of the Radical Enlightenment The book analyses the enlightenment's role in the demolition of traditional structures of authority scientific thought and belief *Radical Enlightenment* Jonathan Irvine Israel, 2001 The Radical Enlightenment was a revolutionary set of ideas which helped lay the foundations of the modern world on the basis of equality democracy secular values and universality This controversial and original study by the internationally renowned cultural historian Jonathan I Israel shows how Spinoza and his thought set the intellectual current towards the intellectual and political revolutions of the later eighteenth century **Kant's Rational Religion and the Radical Enlightenment** Anna Tomaszewska, 2022-07-28 Kant's defence of religion and attempts to reconcile faith with reason position him as a moderate Enlightenment thinker in existing scholarship Challenging this view and reconceptualising Kant's religion along rationalist lines Anna Tomaszewska sheds light on its affinities with the ideas of the radical Enlightenment originating in the work of Baruch Spinoza and understood as a critique of divine revelation Distinguishing the epistemological ethical and political aspects of such a critique Tomaszewska shows how Kant's defence of religion consists of rationalizing its core tenets and establishing morality as the essence of religious faith She aligns him with other early modern rationalists and German Spinozists and reveals the significance for contemporary political philosophy Providing reasons for prioritizing freedom of thought and hence religious criticism over an unqualified freedom of belief Kant's theology approximates the secularising tendency of the radical Enlightenment Here is an understanding of how the shift towards a secular outlook in Western culture was shaped by attempts to rationalize rather than uproot Christianity *Islam in Education in European Countries. Pedagogical Concepts and Empirical Findings* Aurora Alvarez Veinguer, Gunther Dietz, Dan-Paul Jozsa, Thorsten Knauth, 2009 Relations between Muslims and the public education systems of Europe are often characterised by tensions There is often still a perceived incompatibility between the claims of individual Muslims or Muslim communities on the one hand and the aims of public education in Europe on the other The relatively recent presence of Islam in much of Europe the internal diversity of Muslim communities the lack of a centralized hierarchical church like structure different arguments are used to justify such a discriminatory treatment of one of the largest faith communities in Europe Nevertheless as this book aims to illustrate there are already rich and diverse experiences throughout Europe of how to integrate Islam into the national and regional school systems particularly in primary but also in secondary education Accordingly this book provides some analyses of the ways in which Islam is integrated in education in certain regions of Spain the Netherlands France and England These analyses are paralleled by empirical findings concerning the role of religion in the life of young Muslims their views concerning religion in school and the impact of religion in education and

society in Spain the Netherlands Norway Germany France and England **Revolutionary Europe 1780-1850** Jonathan Sperber, 2017-04-21 Jonathan Sperber's *Revolutionary Europe 1780-1850* is a history of Europe in the age of the French Revolution from the end of the old regime to the outcome of the revolutions of 1848 Fully revised and updated this second edition provides a continent wide history of the key political events and social transformation that took place within this turbulent period extending as far as their effects within the European colonial society of the Caribbean Key features include analyses of the movement from society's old regime of orders to a civil society of property owners the varied consequences of rapid population increase and the spread of market relations in the economy and the upshot of these changes for political life from violent revolutions and warfare to dramatic reforms and peaceful mass movements a lively account of the events of the period and a thorough analysis of the political cultural and socioeconomic transformations that shaped them a look into the lives of ordinary people amidst the social and economic developments of the time a range of maps depicting the developments in Europe's geographic scope between 1789 and 1848 including for the 1820 1830 and 1848 revolutions *Revolutionary Europe 1780-1850* is the perfect introduction for students of the history of the French Revolution and the history of Europe more broadly [The Science of the Soul in Colonial New England](#) Sarah Rivett, 2012-12-01 *The Science of the Soul* challenges long standing notions of Puritan provincialism as antithetical to the Enlightenment Sarah Rivett demonstrates that instead empiricism and natural philosophy combined with Puritanism to transform the scope of religious activity in colonial New England from the 1630s to the Great Awakening of the 1740s In an unprecedented move Puritan ministers from Thomas Shepard and John Eliot to Cotton Mather and Jonathan Edwards studied the human soul using the same systematic methods that philosophers applied to the study of nature In particular they considered the testimonies of tortured adolescent girls at the center of the Salem witch trials Native American converts and dying women as a source of material insight into the divine Conversions and deathbed speeches were thus scrutinized for evidence of grace in a way that bridged the material and the spiritual the visible and the invisible the worldly and the divine In this way the science of the soul was as much a part of seventeenth and eighteenth century natural philosophy as it was part of post Reformation theology Rivett's account restores the unity of religion and science in the early modern world and highlights the role and importance of both to transatlantic circuits of knowledge formation **Spinoza's Religion** Clare Carlisle, 2021-09-07 A bold reevaluation of Spinoza that reveals his powerful inclusive vision of religion for the modern age Spinoza is widely regarded as either a God forsaking atheist or a God intoxicated pantheist but Clare Carlisle says that he was neither In *Spinoza's Religion* she sets out a bold interpretation of Spinoza through a lucid new reading of his masterpiece the *Ethics* Putting the question of religion centre stage but refusing to convert Spinozism to Christianity Carlisle reveals that being in God unites Spinoza's metaphysics and ethics *Spinoza's Religion* unfolds a powerful inclusive philosophical vision for the modern age one that is grounded in a profound questioning of how to live a joyful fully human life Like Spinoza himself the *Ethics* doesn't fit into any

ready made religious category But Carlisle shows how it wrestles with the question of religion in strikingly original ways responding both critically and constructively to the diverse broadly Christian context in which Spinoza lived and worked Philosophy itself as Spinoza practiced it became a spiritual endeavor that expressed his devotion to a truthful virtuous way of life Offering startling new insights into Spinoza s famously enigmatic ideas about eternal life and the intellectual love of God Carlisle uncovers a Spinozist religion that integrates self knowledge desire practice and embodied ethical life to reach toward our highest happiness to rest in God Seen through Carlisle s eyes the Ethics prompts us to rethink not only Spinoza but also religion itself
