Raging Robots and Unruly Uncles Margaret Mahy, 1990 *Raging Robots and Unruly Uncles* Margaret Mahy, 1988 A wonderfully original story about wicked Uncle Jasper and his law abiding brother whose children are driven away by two terrible robots **Raging Robots and Unruly Uncles**, 2013 Wicked Uncle Jasper and his good twin brother were both equally exasperated by their children When the uncles got two bossy robots the children simply ran away Raging Robots & Unruly Uncles Margaret Mahy, 1981 The arrival of two single minded robots convinces twin brothers wicked Jasper and virtuous Jason that their own children who have run away aren't so bad after all **A Dissolving Ghost** Margaret Mahy, 2000 Margaret Mahy is known throughout New Zealand as a brilliant and prolific children's writer Less widely known but equally remarkable are her commentaries on fiction writing and the imagination The sense of delight and careful attention which she brings to the writing of others has germinated many astute and fascinating talks and essays which are collected here for the first time Spiritcarvers Antonella Sarti, 1998 In a land caught between the sea and cloud where the natural landscape still refuses civilization there are those the composers of words tellers of tales that help shape the minds of the people that live on its shores They are spiritcarvers New Zealand writing today is engaging in an intent struggle to subvert multiple shapes into voices These interviews as a record of biographical orature are shaped into presenting the figure of the storyteller through memory and language explorations of how we imagine and create ourselves with and into words Here we encounter the dichotomy of fiction and non fiction myth and consensual reality imagination and truth do we live within our own selected fictions Identity is shaped by the authors sense of displacement as well as of belonging meeting otherness with dispossession discovering connection through isolation Among the focal points of the interviews are the role of women's writing Maori writing interrelations among different cultures and the influence of literary and oral tradition within New Zealand **Magical Margaret Mahy** Betty Gilderdale, 2013-04-24 Throughout her childhood she was making up stories Before she could write she drew them By the time she was seven she knew she wanted to write books Margaret Mahy was a wizard of words and a spinner of magical stories She was New Zealand's best known author for children wrote more than 200 books and often appeared in a purple wig or a penguin suit while she delighted audiences with vivacious readings of her stories But who was Margaret Mahy What was she like as a child How did she become a writer Where did her weird and wonderful ideas come from Turn these pages and step into a world of the magical Margaret Mahy **The Philosophical Child** Jana Mohr Lone, 2012-09-16 What does it mean to be good Why do people die What is friendship Children enter the world full of questions and wrestle with deep thoughtful issues even if they do not always wonder them aloud Many parents have the desire to discuss philosophical ideas with their children but are unsure how to do so The Philosophical Child offers parents guidance on how to gently approach philosophical questions with children of all ages Jana Mohr Lone argues that for children to mature emotionally they must develop their desire and ability to think abstractly about

themselves and their experiences This book suggests easy ways that parents can engage with their children's philosophical questions and help them develop their philosophical selves Children's Fiction Sourcebook Margaret Hobson, Jennifer Madden, Ray Prytherch, 2018-12-17 First published in 1992 this Sourcebook is a basic working tool for all those concerned with children's reading It will help librarians and teachers to select a comprehensive stock of children's fiction for their institutions The authors in the sourcebook have been selected on the grounds of importance popularity and current availability Author entries are arranged in alphabetical order and indexes provided by title series age range and genre Each entry consists of some background information and evaluative comment on style of the book a list of the authors books with publisher date and price and literary agent where applicable There is a suggestion of similar authors sequels related series and reader age range Observing Children in the Primary Classroom (RLE Edu O) Richard Mills, 2012-05-31 In a sequence of observations of six children aged 5-11 in six different state schools this book offers a slice of classroom life a microcosm of the educational scene Since the book was first written there have been many changes in the curriculum structure governance and funding of British primary schools as well as in the language used to describe these changes But Observing Children in the Primary Classroom remains as valid now as earlier as a lively and entertaining indicator of children's daily school experience We see the reception class of an infants school through the eyes of Mike a lively five year old traveller boy Six year old Rashda a girl of Asian heritage grapples with English as a Second Language at her multi ethnic city school Slow learner David finds school life rather overpowering despite receiving expert extra help Lucy eight is a star in everything she does at her Roman Catholic school while Lorraine one year older is cheerful but utterly bewildered Finally Peter organises his work in an open plan setting and makes some surprising choices
