Loose Connections Joining Together In Americas Fragmented Communities By Wuthnow:

Loose Connections Robert Wuthnow,1998-11-30 People are still connected but because of the realities of daily life they form loose connections These more fluid groups are better suited to dealing with today s needs than the fraternal orders and ladies auxiliaries of the past

Networked Neighbourhoods Patrick Purcell,2007-11-08 The setting for this book is the networked community The treatment of the subject matter is broad and interdisciplinary with contributions from computer science sociology design human factors and communication technology The chapter contributors drawn from across Europe and North America offer a varied *Re-imagining Life Together in America* Catherine T. Nerney, Hal Taussig,2002 Well written and highly accessible this book interweaves a thorough review of developments in Christian community from the first century to the present with powerful new discoveries in scriptural theological and historical research that has uncovered deep communal strands in the foundational literature and notions of Christianity The result is a profound call for the renewal of Christian community and churches as crucial models and inspirations for the new search for wholeness in America

Diminished Democracy Theda Skocpol,2013-06-14 Pundits and social observers have voiced alarm each year as fewer Americans involve themselves in voluntary groups that meet regularly Thousands of nonprofit groups have been launched in recent times but most are run by professionals who lobby Congress or deliver social services to clients What will happen to U S democracy if participatory groups and social movements wither while civic involvement becomes one more occupation rather than every citizens right and duty In *Diminished Democracy* Theda Skocpol shows that this decline in public involvement has not always been the case in this country and how by understanding the causes of this change we might reverse it

Hurricane Katrina and the Redefinition of Landscape DeMond Shondell Miller, Jason David Rivera,2009-01-01 Miller and Rivera explore how the fundamental changes to the physical landscape after Hurricane Katrina set the stage for dramatic changes to come for the city and region and how these changes altered the economic cultural and political lives of the survivors

Understanding the Diaconate W. Shawn McKnight,2018-07-13 What is a deacon More than fifty years since the restoration of the permanent diaconate by the Second Vatican Council the office of deacon is still in need of greater specificity about its purpose and place within the mission and organizational structure of the Church While the Church is more than a social reality the Church nonetheless has a social reality Our understanding of the diaconate therefore benefits from a theological discussion of the divine element of the Church and a sociological examination of the human element *Understanding the Diaconate* adds the resources of sociology and anthropology to the theological sources of scripture liturgy patristic era texts theologians and magisterial teachings to conclude that the deacon can be understood as social intermediary and symbol of *communitas* who serves the participation of the laity in the life and mission of the Church This research proposes the deacon as a servant of the bond of communion within the Church facilitating the relationship between the bishop priest and his people and between the People of God and the individual in need Thus authentic diaconal

ministry includes a vast array of many concrete contexts of pastoral importance where one does more than simply serve at Mass

Ways of Life in the Late Modernity Helena Kubátová, Karel Čada, Martin Fafejta, Ivan Chorvát, Kateřina Ivanová, Eva Jarošová, Jan Kalenda, Lucie Křeménková, Dušan Lužný, Erika Moravčíková, Ivan Nový, Miloslav Petrusek, Juraj Skačan, Alois Surynek, Urszula Swadźba, Daniel Topinka, Jan Váně, Miluše Vítečková, František Zich, 2016-12-31 The aim of this monograph is to show the contexts in which ways of life are conducted in late modernity the dimensions of life in late modernity we can identify and how we can describe and understand them The fundamental starting point of the monograph is the thesis that late modernity is characterized amongst other factors by large number of life forms and ways of life The monograph is introduced with a chapter entitled Ways of Life in Late Modernity in which the author attempts to define the concepts of way of life lifestyle and life architecture to outline different theoretical approaches to understanding way of life and to define some characteristics of late modern ways of life The monograph is further divided into three parts

Collaborative Parish Leadership William A. Clark, Daniel Gast, 2016-12-27 These essays explore team based parish leadership theologically sociologically and pastorally in a variety of cultures and circumstances The result is an extended conversation both practical and deeply reflective emerging from the collaboration of theologians social researchers organizational development specialists and pastoral ministers Collaborative Parish Leadership draws on the experience strengths challenges and insights of the long term pastoral academic partnerships out of which it has grown These include Project INSPIRE a pastoral team formation project sponsored by Loyola University and the Archdiocese of Chicago and funded by the Lilly Endowment Inc as part of its Sustaining Pastoral Excellence initiative Another partner initiative is the international pastoral minister exchange Crossing Over involving several Catholic dioceses in northwest Germany and based at Ruhr University Bochum Authors of these essays have also been involved in Emerging Models of Pastoral Leadership the Congregational Studies Team's Engaged Scholars fellowship both also Lilly Endowment funded projects and other projects Collaborative Parish Leadership employs practical theological methods rooted in pastoral experience and integrated with scholarly reflection Opening essays deal with the current situation of U S parishes the parish consultancy model of Project INSPIRE and a case study of several parishes that benefited from the project The following chapters present comparative case studies of collaborative leadership in various settings multicultural parishes in different parts of the U S parish clusters consolidating into single parishes using very different processes and parishes in Chicago and Mexico City meeting similar urban challenges Three authors associated with CrossingOver and its participating dioceses assess the general state of parish reorganization in Germany and the potential of the unique approach to team leadership taken in the French archdiocese of Poitiers The final chapters reflect on the theology of parish leadership from pastoral and systematic perspectives and on the future needs and possibilities of collaborative approaches Overall Collaborative Parish Leadership engages and challenges academic and pastoral leaders in diverse social and ecclesial situations suggests multiple models for

cultivating collaboration builds connections between collaborative action and theological development

Who Speaks for America's Children? Carol J. De Vita, Rachel Mosher-Williams, 2001 Because nonprofit and voluntary organizations are primary vehicles of citizen action and participation they serve as important mechanisms to understand how the needs of children can be heard in the policymaking process and how the quality of children's lives can be improved In *Who Speaks for America's Children* leading experts in children's health policy education policy community organizing and sociology focus on the ways nonprofit organizations and community groups influence policymaking on children's issues Seven chapters frame the issues raise critical questions and explore opportunities for further study

American Democracy in Peril: Eight Challenges to America's Future, 7th Edition William E. Hudson, 2012-07-13 *American Democracy in Peril* encapsulates the tumultuous state of American politics By introducing the history of democratic theory in terms of four models of democracy Hudson provides readers with a set of criteria against which to evaluate the challenges discussed later This provocative book offers a structured yet critical examination of the American political system designed to stimulate students to consider how the facts they learn about American politics relate to democratic ideals This new edition incorporates the Trump Presidency and the polarization that has accompanied his leadership Provided by Publisher

Philanthropy in America Dwight F. Burlingame, 2004-08-19 A landmark three volume reference work documenting philanthropy and the nonprofit sector throughout American history edited by the field's most widely recognized authority Developed under the guidance of Dr Dwight Burlingame of the Indiana University Center on Philanthropy one of the nation's premier institutes for the study of philanthropy the three volume *Philanthropy in America: A Comprehensive Historical Encyclopedia* is the definitive work on philanthropic charitable and nonprofit endeavors in the United States The first section of the encyclopedia contains over 200 A-Z entries covering the lives of important philanthropists the missions and practices of key institutions and organizations and the impact of seminal events throughout the history of the nonprofit sector in America from precolonial times to the present Discussions of philanthropic traditions in ancient civilizations in Europe during colonial times and in countries around the world today provide fascinating contexts for understanding how the American philanthropic experience has developed The encyclopedia also includes a collection of primary source documents legislation foundation reports mission statements etc for convenient review and further research

Knowledge and Civil Society Johannes Glückler, Heinz-Dieter Meyer, Laura Suarsana, 2021-12-08 This open access book focuses on the role of civil society in the creation dissemination and interpretation of knowledge in geographical contexts It offers original interdisciplinary and counterintuitive perspectives on civil society The book includes reflections on civil and uncivil society the role of civil society as a change agent and on civil society perspectives of undone science Conceptual approaches go beyond the tripartite division of public private and civic sectors to propose new frameworks of civic networks and philanthropic fields which take an inclusive view of the connectivity of civic agency across sectors This includes relational analyses of epistemic power in civic knowledge networks as well as of

regional giving and philanthropy The original empirical case studies examine traditional forms of civic engagement such as the German landwomen s associations as well as novel types of organizations such as giving circles and time banks in their geographical context The book also offers insider reflections on doing civil society such as the cases of the Umbrella Movement in Hong Kong epistemic activism in the United States and the FeesMustFall movement in South Africa Group Life Gary Alan Fine,Tim Hallett,2022-10-04 Sociological analysis is replete with debates about micro and macro individual and society but all too often these miss the point interacting groups are the hinge that connects the two To understand how structures matter and how individuals navigate them we must take groups and people in local communities seriously Gary Alan Fine and Tim Hallett skillfully argue that sociologists have the obligation to examine the role of small communities in the creation of both the interaction order and structural realities With novel concepts and rich ethnographic examples this book describes how group commitments shape selves and society emphasizing the importance of a meso level approach to social organization Fine and Hallett provide new models of identity culture conflict and control and consider how a network of groups can provide insight into extended communication channels and social media lattices Ultimately they show that despite the importance of institutions and individuals group life is the fundamental building block of community This timely book makes the case for a local sociology that includes sociality It will be a welcome resource for students and sociologists and a necessary call to action for the discipline as a whole *I, Citizen* Tony Woodlief,2021-12-07 This is a story of hope but also of peril It began when our nation s polarized political class started conscripting everyday citizens into its culture war From their commanding heights in political parties media academia and government these partisans have attacked one another for years but increasingly they ve convinced everyday Americans to join the fray Why should we feel such animosity toward our fellow citizens our neighbors even our own kin Because we ve fallen for the false narrative eagerly promoted by pundits on the Left and the Right that citizens who happen to vote Democrat or Republican are enthusiastic supporters of Team Blue or Team Red Aside from a minority of party activists and partisans however most voters are simply trying to choose the lesser of two evils The real threat to our union isn t Red vs Blue America it s the quiet collusion within our nation s political class to take away that most American of freedoms our right to self governance Even as partisans work overtime to divide Americans against one another they ve erected a system under which we ordinary citizens don t have a voice in the decisions that affect our lives From foreign wars to how local libraries are run authority no longer resides with We the People but amongst unaccountable officials The political class has stolen our birthright and set us at one another s throats This is the story of how that happened and what we can do about it America stands at a precipice but there s still time to reclaim authority over our lives and communities The Sociology of Caregiving John G. Bruhn,Howard M. Rebach,2014-05-27 This volume conceptualizes caregiving as an emerging sociological issue involving complex and fluctuating roles The authors contend that caregiving must be considered in the context of the life span with needs that vary according to age

developmental levels mental health needs and physical health demands of both caregivers and care recipients As the nature and functions of caregiving evolve it has become a critical and salient issue in the lives of individuals in all demographic socioeconomic and ethnic categories This volume frames caregiving as a sociological issue and addresses a number of central concerns such as Caregiving is a life span experience associated with aging and the roles of spouses and adult children Caregiving involves a complex of social system variables that influence the social support and services to caregivers and care recipients The nature of the relationship among family caregivers professional caregivers and the care recipient are embedded in their interaction and dynamics influenced by the internal and external variables that inhibit or facilitate the care situation How can caregiving be integrated with a public health agenda What disparities or inequalities exist in caregiving and what are the barriers that sustain them What community based interventions need to be developed to improve caregiving

Democracy's Voices Robert M. Fishman, 2018-07-05 Building on one of sociology's core ideas that social ties can shape collective outcomes Democracy's Voices shows that connections across class boundaries can remake public rhetoric and thus the quality of democratic life Robert M Fishman takes up a question of enduring significance to people concerned with the quality of democratic public life focusing on why political rhetoric proves engaging and broadly relevant or disengaging and narrow The answer to that question he argues is to be found not only in the deeds of prominent politicians and the nature of official institutions but also in the existence and the character of social connections among ordinary citizens Fishman's book based on long term fieldwork and systematic survey research in Spain identifies the special contribution to democratic quality made by conversations between intellectuals and workers Fishman focuses on what he calls the discursive horizons of local leaders and communities the actual location of the problems and proposed remedies articulated in political rhetorics Democracy's Voices shows how the subcultural context of social ties may accentuate or diminish their power to reshape rhetorics Fishman argues that conversations are able to remake public rhetorics whereas ties that take the form of brokerage lack that ability The book also offers a general critique of social capital theory and argues that the full ability of social ties to shape collective outcomes can only be observed when one distinguishes in useful ways among types of ties

Public Worship and Public Work Christian Batalden Scharen, 2004 Description In a time of increasing cultural pluralism and vast religious restructuring in the United States Christian social ethics must take account of how values and commitments shape Christian communities In Public Worship and Public Work Christian Scharen examines theological claims about the relationship of worship and ethics by means of ethnographic study of the life worship and work of three vibrant congregations Public Worship and Public Work moves beyond two caricatures of the relationship between worship and social ethics Rather than resolute portrayals of the Church as a reflection of its culture and context and causal accounts of the Church's liturgy forming a Christian witness over and against culture this book lifts up congregational identity as an area of dynamic interaction between worship social ethics and culture Chapters in Part One are Liturgy and

Social Ethics Characterizing a Debate and Sociologizing the Debate Identity Ritual and Public Commitment Chapters in Part Two Three Case Studies in Atlanta s Old Downtown are People Living Church The Catholic Shrine of the Immaculate Conception Jesus Saves Big Bethel African Methodist Episcopal Church and The Church at Work Central Presbyterian Church Part Three concludes with The World in the Church in the World *Anti-Capital: Human, Social and Cultural* Jacek Tittenbrun, 2016-04-15 The notion of capital has enjoyed a rich career in the social sciences its use across a range of subjects and in diverse academic and professional contexts having served to establish its conceptual status as given With particular attention to human and social capital including cultural capital this book traces the roots of this theoretical and conceptual trend to economics revealing the proliferation of various forms of capital to be based upon an encroachment of the conceptual apparatus of economics into other social sciences Offering an in depth critical analysis of the concepts of human and social capital as well as their surrounding theories Anti Capital Human Social and Cultural proposes an alternative theoretical framework whilst better explaining the realities that they mask in economic terms A rigorous exploration of the most popular forms of capital in the contemporary social sciences this book will be of interest to scholars and students of sociology political and social theory demography and economics European Culture Wars and the Italian Case Luca Ozzano, Alberta Giorgi, 2015-09-16 This book aims to understand the European political debate about contentious issues framed in terms of religious values by religious and or secular actors in 21st century It specifically focuses on the Italian case which due to its peculiar history and contemporary political landscape is a paradigmatic case for the study of the relationships between religion and politics In recent years a number of controversies related to religious issues have characterised the European public debate at both the EU and the national level The affaire du foulard in France the referendum on abortion in Portugal the recognition of same sex marriages in many Western European States the debate over bioethics and the regulation of euthanasia are only a few examples of contentious issues involving religion This book aims to shed light on the interrelation between these different debates as well as their broader meaning through the analysis of the paradigmatic case of Italy Italy summarizes and sometimes exasperates wider European trends both because of the peculiar role traditionally played by the Vatican in Italian politics and for the rise since the 1990s of new political entrepreneurs eager to exploit ethical and civilizational issues This work will be of great interest to scholars and students of a number of fields within the disciplines of political science sociology and law and will be useful for courses on religion and politics political parties social movements and civil society **The Routledge History of Rural America** Pamela Riney-Kehrberg, 2016-04-14 The Routledge History of Rural America charts the course of rural life in the United States raising questions about what makes a place rural and how rural places have shaped the history of the nation Bringing together leading scholars to analyze a wide array of themes in rural history and culture this text is a state of the art resource for students scholars and educators at all levels This Routledge History provides a regional context for understanding change

in rural communities across America and examines a number of areas where the history of rural people has deviated from the American mainstream. Readers will come away with an enhanced understanding of the interplay between urban and rural areas, a knowledge of the regional differences within the rural United States, and an awareness of the importance of agriculture and rural life to American society. The book is divided into four main sections: regions of rural America, rural lives in context, change and development, and resources for scholars and teachers. Examining the essays on the regions of rural America, readers can discover what makes New England different from the South and why the Midwest and Mountain West are quite different places. The chapters on rural lives provide an entrance into the social and cultural history of rural peoples, women, children, and men, as well as a description of some of the forces shaping rural communities, such as immigration, race, and religious difference. Chapters on change and development examine the forces molding the countryside, such as rural-urban tensions, technological change, and increasing globalization. The final section will help scholars and educators integrate rural history into their research, writing, and classrooms. By breaking the field of rural history into so many pieces, this volume adds depth and complexity to the history of the United States, shedding light on an understudied aspect of the American mythology and beliefs about the American dream.
