Ottoman Borderlands Issues Personalities And Pol:

Ottoman Borderlands Kemal H. Karpat, Robert W. Zens, 2003 *Ottoman Borderlands* consisting of a number of articles by prominent scholars aims to begin to fill a large gap in Ottoman studies namely the study of the borderlands and their socially ethnically and religiously heterogeneous population In both the frontier provinces and the semiautonomous borderlands the central government used force economic incentives and the granting of titles to establish control over local rulers and when possible to integrate them into the system However despite the pressing power of the central government the borderlands remained cultural social units with their own identities and their own internal dynamics While the core provinces were more Ottoman Islamic and Turkish speaking the borderlands were culturally religiously and linguistically more heterogeneous as well as more politically autonomous Originally published by the International Journal of Turkish Studies **Empire and Power in the Reign of Süleyman** Kaya Şahin, 2013-03-29 Kaya Şahin's book offers a revisionist reading of Ottoman history during the reign of Süleyman the Magnificent 1520-66 By examining the life and works of a bureaucrat Celalzade Mustafa Şahin argues that the empire was built as part of the Eurasian momentum of empire building and demonstrates the imperial vision of sixteenth century Ottomans This unique study shows that in contrast with many Eurocentric views the Ottomans were active players in European politics with an imperial culture in direct competition with that of the Habsburgs and the Safavids Indeed this book explains Ottoman empire building with reference to the larger Eurasian context from Tudor England to Mughal India contextualizing such issues as state formation imperial policy and empire building in the period more generally Şahin's work also devotes significant attention to the often ignored religious dimension of the Ottoman-Safavid struggle showing how the rivalry redefined Sunni and Shiite Islam laying the foundations for today's religious tensions

Heroin, Organized Crime, and the Making of Modern Turkey Ryan Gingeras, 2018-01-26 *Heroin Organized Crime and the Making of Modern Turkey* explores the history of organized crime in Turkey and the roles which gangs and gangsters have played in the making of the Turkish state and Turkish politics Turkey's underworld which has been at the heart of several devastating scandals over the last several decades is strongly tied to the country's long history of opium production and heroin trafficking As an industry at the centre of the Ottoman Empire's long transition into the modern Turkish Republic as important as the silk road had been in earlier centuries the modern rise of the opium and heroin trade helped to solidify and complicate long standing relationships between state officials and criminal syndicates Such relationships produced not only ongoing patterns of corruption but helped fuel and enable repeated acts of state violence Drawing upon new archival sources from the United States and Turkey including declassified documents from the Prime Minister's Archives of the Republic of Turkey and the Central Intelligence Agency *Heroin Organized Crime and the Making of Modern Turkey* provides a critical window into how a handful of criminal syndicates played supporting roles in the making of national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state

revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic's establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country's past

Ottoman Wars, 1700-1870 Virginia Aksan, 2014-01-14 The Ottoman Empire had reached the peak of its power presenting a very real threat to Western Christendom when in 1683 it suffered its first major defeat at the Siege of Vienna Tracing the empire's conflicts of the next two centuries *The Ottoman Wars An Empire Besieged* examines the social transformation of the Ottoman military system in an era of global imperialism Spanning more than a century of conflict the book considers challenges the Ottoman government faced from both neighbouring Catholic Habsburg Austria and Orthodox Romanov Russia as well as arguably more importantly from military intellectual and religious groups within the empire Using close analysis of select campaigns Virginia Aksan first discusses the Ottoman Empire's changing internal military context before addressing the modernized regimental organisation under Sultan Mahmud II after 1826 Featuring illustrations and maps many of which have never been published before *The Ottoman Wars* draws on previously untapped source material to provide an original and compelling account of an empire near financial and societal collapse and the successes and failures of a military system under siege The book is a fascinating study of the decline of an international power raising questions about the influence of culture on warfare

The Ottoman Empire and the Bosnian Uprising Fatma Sel Turhan, 2014-09-29 Bosnia enjoyed a special status within the Ottoman Empire Many of the empire's janissaries an elite military stratum of soldiers and nobleman hailed from this Balkan region So when Sultan Mehmet II abolished this warrior class in 1826 and this curtailed the region's access to influence in Constantinople Bosnia rebelled Under the leadership of Husein Gradiscevic the dragon of Bosnia the kingdom declared independence and waged war with the Ottoman Empire For the first time Fatma Sel Turhan illuminates a period of crucial importance to the Balkan regions She argues convincingly that the uprising was a response to Ottoman moves towards modernization designed to save the Ottoman Empire from decline but which eventually led to its demise She assesses how far the uprising can be considered a nationalist movement who the rebels were and how the central authorities dealt with and punished the perpetrators *The Ottoman Empire and the Bosnian Uprising* is a major fresh contribution to our understanding of the late Ottoman world and the history of the Balkans

The Ottoman World Christine Woodhead, 2011-12-15 The Ottoman empire as a political entity comprised most of the present Middle East with the principal exception of Iran north Africa and south eastern Europe For over 500 years until its disintegration during World War I it encompassed a diverse range of ethnic religious and linguistic communities with varying political and cultural backgrounds Yet was there such a thing as an Ottoman world beyond the principle of sultanic rule from Istanbul Ottoman authority might have been established largely by military conquest but how was it maintained for so long over such distances and so many disparate societies How did provincial regions relate to the imperial centre and what role was played in this by local elites What did it mean in practice for ordinary people to be part of an Ottoman world Arranged in five thematic sections with contributions from thirty specialist historians The Ottoman World addresses these questions examining aspects of the social and socio ideological composition of this major pre modern empire and offers a combination of broad synthesis and detailed investigation that is both informative and intended to raise points for future debate The Ottoman World provides a unique coverage of the Ottoman empire widening its scope beyond Istanbul to the edges of the empire and offers key coverage for students and scholars alike

Goff, Lewis H. Siegelbaum, 2019-04-15 Empire and Belonging in the Eurasian Borderlands engages with the evolving historiography around the concept of belonging in the Russian and Ottoman empires The contributors to this book argue that the popular notion that empires do not care about belonging is simplistic and wrong Chapters address numerous and varied dimensions of belonging in multiethnic territories of the Ottoman Empire Imperial Russia and the Soviet Union from the mid nineteenth to the late twentieth centuries They illustrate both the mutability and the durability of imperial belonging in Eurasian borderlands Contributors to this volume pay attention to state authorities but also to the voices and experiences of teachers linguists humanitarian officials refugees deportees soldiers nomads and those left behind Through those voices the authors interrogate the mutual shaping of empire and nation noting the persistence and frequency of coercive measures that imposed belonging or denied it to specific populations deemed inconvenient or incapable of fitting in The collective conclusion that editors Krista A Goff and Lewis H Siegelbaum provide is that nations must take ownership of their behaviors irrespective of whether they emerged from disintegrating empires or enjoyed autonomy and power within them **Loyalty and Citizenship** Gözde Yazıcı Cörüt, 2021-12-06 G zde Yaz c C r t unfolds the details of everyday life and represents the local people as active agents active moreover in relation both to the changing nature and effectiveness of the Ottoman state s assertion of territorial authority and also to the differences between policies and practices of the Russian and Ottoman Empires Overall she focuses on the end of empire border politics and the issue of Ottoman citizenship not only from the perspective of macro level political developments and central state power but also in terms of the peripheral specificities of administration and the movements and subjecthood choices of people inhabiting the Russo Ottoman borderland The author presents a new type of multi faceted account of borderland development in which ethnoreligious considerations came to inform a somewhat messy production of sovereignty in the context of the modernizing transition between empire and nation state **Index Islamicus** ,2007 *Geopolitics, Geoeconomics and Borderlands* Antonia Colibășanu, 2023-07-25 This book discusses the emerging threats to European stability in different borderland regions from the Greater Middle East to the Eastern Mediterranean the Balkans and the Black Sea It highlights the specific geopolitical risks that could left unchecked have global repercussions The book shows how recent events have exasperated underlying problems that have been slowly destabilizing each of these regions for years It also looks at the geopolitical constraints and objectives of the countries within these regions to build a basis for understanding their current and future security challenges While doing so the book discusses the European borderlands in a non traditional way proposing a specific framework to study them going beyond historical analysis and employing a heuristic process and in depth socio economic analysis to understand regional power relations and trends It develops the key concepts of core borderland and geopolitical

Travel and Artisans in the Ottoman Empire Suraiya Faroqhi, 2014-01-30 It has often been assumed that the subjects of the Ottoman sultans were unable to travel beyond their localities since peasants needed the permission of their local administrators before they could legitimately leave their villages However Suraiya Faroqhi s extensive archival research shows that this was not the case Pious men from all walks of life went on pilgrimage to Mecca slaves fled from their masters and craftspeople travelled in search of work Faroqhi shows that even those craftsmen who did not travel extensively had some level of mobility Challenging existing historiography and providing an important new perspective this book will be essential reading for students and scholars of Ottoman history
