Tucker, 2013-03-05 In this collection essayists examine their lives their memories of Mississippi the reasons they left the state
and what drew them back They talk about how life differs and wears on you in the far flung parts of our nation and the
qualities that make Mississippi unique The writers from all corners of the state are as diverse as the regions from which they
come They are of different races different life experiences different talents and different temperaments Yet in acceding to the
magical lure of Mississippi they are in many ways alike Their roots are deep in the rich soil of this state and they come from
strong families that valued education and promoted indomitable optimism Successes stem from a passion usually emerging
early in life which burns within them But that passion is tempered disciplined encouraged and influenced by the people
around them as well as the landscape and the history of their times These essays give us a glimpse of the people and places
that nurtured the young lives of the essayists and offered the values that directed them as they sought their dreams
elsewhere Often they found that opportunity was within their grasp in their home state and came back to realize their full
potential They came back in some cases to retire to a familiar place of pleasant memories to family and to friends They all
have a love and respect for Mississippi and continue back home to use their talents to help make the state an even better
