Austrian Capital Theory Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the productive resources that will produce those consumptions goods The entrepreneur is a ubiquitous calculating presence In a review of

the development of Austrian capital theory by Carl Menger Eugen von Böhm-Bawerk Ludwig von Mises Friedrich Hayek Ludwig Lachmann as well as recent contributions the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory *Future Perspectives on Positive Psychology: A Research Agenda* Marisa Salanova, Llewellyn Ellardus Van Zyl, 2022-07-29 [Looking Back, Looking Forward](#) John Pepper, 2017-08-28 *Language for Special Purposes* Felix Mayer, 2001 *Global Perspectives on Interventions in Forensic Therapeutic Communities* Geraldine Akerman, Richard Shuker, 2022-02-10 *Global Perspectives on Interventions in Forensic Therapeutic Communities A Practitioner's Guide* explores the validity and effectiveness of secure settings as therapeutic communities TCs Rooted in practice this book examines the transferability of approaches within international TCs to other forensic settings while considering how the environment contributes to effectiveness In this volume Akerman and Shuker bring together leading clinicians from across the world to offer insight into critical topics including the impact of gang membership on therapeutic process and the community how core creative therapies are integrated and how the model is applied in international settings and across varied contexts Leading clinicians draw on rare reports and papers to explain the therapeutic community model while keeping in mind the diverse contexts within which it is practiced The book provides a much needed global perspective on the diverse role TCs have across forensic services This groundbreaking book is valuable reading for forensic and clinical psychologists counsellors social workers and psychiatrists working in secure prison or rehabilitation settings as well as students in these fields *Hitchcock's Moral Gaze* R. Barton Palmer, Homer B. Pettey, Steven M. Sanders, 2017-01-30 In his essays and interviews Alfred Hitchcock was guarded about substantive matters of morality preferring instead to focus on discussions of technique That has not however discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty fidelity jealousy courage love and loyalty Through discussions and analyses of such films as *Strangers on a Train* *Rear Window* *Vertigo* *North by Northwest* and *Frenzy* the contributors to this book strive to throw light on the way Hitchcock depicts a moral if not amoral or immoral world Drawing on perspectives from film studies philosophy literature and other disciplines they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema [Distinctives](#) Vaughan Roberts, 2000-03-01 In a fresh and readable style Vaughan Roberts issues a challenging call to Christians to live out their faith We should be different from the world around us Targeting difficult but crucial areas such as our attitude to money and possessions sexuality contentment relativism and service this teaching is holiness in the tradition of J C Ryle for the contemporary generation Roberts helps us to consider how we are to respond biblically to the temptations and pitfalls surrounding us giving what we cannot keep to gain what we cannot lose
