Exemplary Leadership Practices Peter R. Litchka, 2016-08-19 This book shares stories of historical figures from the past as well as contemporary school superintendents and principals The present nature and complexity of leadership is heavily dependent on the past as we cannot fully understand or appreciate the current context without going back and exploring the past To ignore great leaders from the past would run the risk of having current and aspiring school leaders not completely knowing understanding and appreciating these exemplary lessons the contemporary context These stories help us to understand the values beliefs and morals of contemporary school leaders they help us define what it means to be a school leader in contemporary America We can learn history in terms of stories either through telling stories or listening to the stories of others But it is more than telling and listening It is learning for not only those who wish to be school leaders but learning for those who currently are in positions of school leadership

The Hymn , 2015 **Designing the Domestic Posthuman** Colbey Emmerson Reid, Dennis M. Weiss, 2023-12-28 Ever since TIME magazine s 1983 Man of the Year was the PC we have been led to believe that our domestic spaces have been colonized by digital technology Too little attention has been paid to the domestic spaces and inhabitants impacted by this and critical posthumanism has been captured by a picture of humanity overly indebted to digital technologies and their largely male progenitors By applying feminist theory to posthumanism this work recovers the plethora of sophisticated human technology mediations associated with the home and practiced primarily by women the elderly infants the disabled and across cultures globally challenging dominant contemporary visions of a future humanity Authors Dennis M Weiss and Colbey Emmerson Reid look at various iterations of

the posthuman and assert the need for alternative feminist readings that emphasize different standpoints from which to assess people places and products Chapters address the impact of posthumanism on design theory and look at familiar domestic objects with different attributes from those typically affiliated with technology and the future such as clothing textiles ceramics furniture and wallpaper They reveal their unhomely extra human qualities and offer a much needed perspective on domestic spaces and practices revivifying the home as a site of species transformation and pushing beyond traditional understandings of person mothering families and care giving to highlight a range of critically overlooked mediated materialisms and embodiments affiliated with domestic space By focusing on the neglected intersection of the posthuman with the home and exploring domestic posthuman design *Designing the Domestic Posthuman* offers a vision of a future humanity that retains identity integrity and considers our relationship to others to the world and things in it This book widens the lens of critical focus in posthumanism feminist philosophy and design and presents an alternative inclusive design framework for the future
