The Decline and Fall of Practically Everyone Victor G. Novander Jr., 2006-03-07 The Decline and Fall of Practically Everyone is a concise history of humanity It is written from the point of view of someone whose outlook on life has been transformed by primal therapy and who has become a lifelong primal person No other history has been written from this unique perspective The Decline and Fall of Practically Everyone offers to each one who is ready for it a fresh glimpse into his own history and into a sound understanding of the course all human history has taken toward the devolution of original human consciousness into unconscious self awareness In Part I the author defines consciousness unconscious self awareness primal pain priming and what living a primal life involves He pictures the primal life as putting one's feet on the path toward greater consciousness The author's stated purpose is to wake us up to our condition of unconscious self awareness He feels that unless we are awakened humanity will continue to careen toward destroying itself and the life sustaining nurture of Earth The author's approach to the necessary awakening is historical If one can see history through primal eyes one will not only see the devolution of consciousness into unconscious self awareness down through the millennia one will sense it in one's own life and do something about it Then in Part II he explores various attributes of unconscious self awareness that are relevant to a primal understanding of history These subjects include the basic split the point at which unconscious self awareness completely suppresses consciousness the location and upward movement of unconscious self awareness in the body the experience of time and space the changing nature of the supreme deity and the four motifs of religion In Part III the author begins to explore the historical devolution of original consciousness into unconscious self awareness Subjects revealing the devolution include beliefs regarding the origin of the cosmos and of humanity the destiny of the dead shamanism the several millennia long invasions by Warrior God societies of Mother Goddess cultures and the revolutionary

religions of Buddhism and Christianity In the authors view everything that has happened since the 1st millennium B C E is but a footnote to it and he therefore skips to the Americas in the 15th century In Part IV the author concentrates on greed and lust for power as the chief characteristics of unconscious self awareness in the modern period He begins with Columbus and the euphemistically named Age of Exploration to illustrate how greed and the lust for power dominated the Western European Colonial powers Next he shows how the Age of Enlightenment and its major philosophers and economists provided the basis for our Founding Fathers to craft a constitution that enshrined themselves as a rich and powerful elite ruling class To illustrate the greed and lust for power of unconscious self awareness in the rest of U S history he discusses economics individualism class and class struggle differences among people and between men and women in the degree of unconscious self awareness family parenting models unilateralism as the national expression of individualism and the U S as a nation dominated by greed by a lust for power by a quest for world domination and by the willingness to use violence and terror to achieve these ends In the final chapter the author reiterates his purpose of awakening his readers from the state of unconscious self awareness In contrast to a strictly psychological approach to fulfill his purpose the author has adopted in addition a perspective that encompasses the whole sweep of human history He ends by offering a cautious optimism for the future

Explore Shamanism Alby Stone,2003 *Neolithic Shamanism* Raven Kaldera,Galina Krasskova,2012-11-16 A step by step guide to working with the spirits of ancient northern Europe Explains how to build relationships with Earth Sun Moon Plants Animals Water Fire Craft Air and the Ancestors through 83 practical exercises Explores the role of altered states in spirit work Outlines the ancient cultural rules and taboos to avoid spiritual debt or offense We are all surrounded by spirits Many people feel called to work with them but few know where to begin Enjoined by the gods and spirits to fulfill this need Raven Kaldera and Galina Krasskova have reconstructed

the indigenous spiritual traditions of northern Europe and Scandinavia extinguished more than one thousand years ago by the spread of Christianity. Arising from basic survival needs, these practical traditions are fundamentally tied to the elements found in the harsh world of the ancient North. Beginning with the skills tied to the Earth element necessary for grounding prior to the more demanding aspects of the practice working with Sun, Moon, Plants, Animals, Water, Fire, Craft, and Air, the authors explain step by step how to build relationships with each elemental spirit and the Ancestors. Offering 83 practical exercises from cleansing with the Moon or borrowing the legs of Reindeer to making sacred space with Mugwort or creating an ancestor altar, they also explore building spirit relationships through altered states. Emphasizing the proper management of your spirit relationships to avoid spiritual debt or offense, the authors outline the ancient cultural rules and taboos that circumscribe these practices, essential knowledge for successful and fruitful spirit alliances. Detailing the beginning set of skills needed to work with the spirits of this ancient world, this comprehensive workbook offers a unique ancestral spiritual outlet for those of northern European descent as well as an accessible guide for anyone trying to fulfill their shamanic callings.

An Encyclopedia of Shamanism Volume 2 Christina Pratt, 2007-08-01. Shamanism can be defined as the practice of initiated shamans who are distinguished by their mastery of a range of altered states of consciousness. Buddhists, Shamans, and Soviets Justine Buck Quijada, 2019-02-15. History in the Soviet Union was a political project. From the Soviet perspective, Buryats, an indigenous Siberian ethnic group, were a backwards nationality that was carried along on the inexorable march towards the Communist utopian future. When the Soviet Union ended, the Soviet version of history lost its power, and Buryats, like other Siberian indigenous peoples, were able to revive religious and cultural traditions that had been suppressed by the Soviet state. In the process, they also recovered knowledge about the past that the Soviet Union had silenced. Borrowing the analytic lens of the chronotope from Bakhtin, Quijada argues that rituals have chronotopes which situate people within time and space. As they revived rituals, Post-Soviet Buryats encountered new historical information and traditional ways of being in time that enabled them to re-imagine the Buryat past and what it means to be Buryat. Through the temporal perspective of a reincarnating Buddhist monk, Dashi Dorzho Etigelov, Buddhists come to see the Soviet period as a test on the path of dharma. Shamanic practitioners, in contrast, renegotiate their relationship to the past by speaking to their ancestors through the bodies of shamans. By comparing the versions of history that are produced in Buddhist shamanic and civic rituals, *Buddhists, Shamans, and Soviets* offers a new lens for analyzing ritual, a new perspective on how an indigenous people grapples with a history of state repression and an

innovative approach to the ethnographic study of how people know about the past Shamans/neo-Shamans Robert J. Wallis, 2003 Robert J Wallis explores the interface between the new and prehistoric shamans of popular culture and anthropology drawing on interviews with a variety of practitioners particularly contemporary pagans in Britain and north America
