Looking After Your Computer For The Older Generation:

The Essential Family Guide to Caring for Older People Deborah Stone, 2019-11-14 No one wants to think about getting older. It's true. At any age when things are moving along normally day to day and everyone seems fit and well there seems no reason to think about future problems that your friends and relatives might and probably will come across as they age. In fact it might even seem a little morbid to think such thoughts or possibly even tempting fate. Yet there will come a time when you must raise these issues and ideally this should be before any problems arise. *The Essential Family Guide to Caring for Older People* is the ultimate source of information and help for families with care responsibilities. Deborah Stone draws on her extensive experience working in elder care to offer practical advice on every aspect of the field in depth. Topics range from how to get help immediately, legal information, care funding options, a guide to useful technology and advice on the main physical and mental health issues that affect older people. Plus guidance is given on dealing with social services and ensuring you choose the right care for your situations. Crucially the book also offers help on how to cope as a carer with practical advice on juggling family work and your caring responsibilities while looking after yourself. *Get Up and Go* Jim McDonald, Olga McDonald, 2003-04-01

There are many books directed at those who are retired or about to retire and most of them focus on financial matters, food and nutrition or the best place to settle down. Most fitness books are written for the serious fitness enthusiast, not your average Canadian annuitant. This is a book with a different goal. *Get Up and Go* motivates those 50 and over to become more physically fit and mentally active. Why? So they can live longer, stay healthy, feel good and enjoy life. And best of all the authors are speaking from first hand experience. If it's in the book it's a reflection of their own personal lifestyle. Whether the reader's main interest is fitness, genealogy, volunteering, crafts, the computer or the learning journey, every chapter is packed with reliable information and interesting tips to help make the most of life.
