Colonial Failure and Theatrical Form in Early Modern England Caro Pirri, 2025-09-30 Colonial Failure and

Theatrical Form in Early Modern England shows how early modern English dramatists preserved and instrumentalized the

early history of England's failed conquests of the Americas in the formal techniques they used to stage fictional worlds

Scholars have long noted that early English drama was interested in representing colonial ventures largely emphasizing

references themes or settings as evidence for this engagement Through an analysis of the technical features of early English

commercial drama this book establishes that popular Renaissance dramatists such as William Shakespeare Christopher

Marlowe Ben Jonson and Thomas Middleton were also sourcing new theatrical tools from contemporary records of colonial

failure recognizing in them a set of techniques for representing geographic disorientation strandedness and confusion During

a time when theater's foundational technologies prop person line and scene were themselves undergoing a formal

transformation dramatists turned to the narrative and spatial incoherence of these settler accounts their uncoupling of the

link between representation what is shown and presentation how it is shown as a resource for highlighting the interpretive

challenges these changing conventions posed By demonstrating that popular drama's development was deeply imprinted by

the history and textual legacy of England's colonial conquests not only as setting or theme but as form this book radically

expands the archive of plays that we could call New World dramas allowing plays that don't appear to be about colonialism to

be understood as borrowing from the rhetorical or narrative structure of colonial texts Stages of Unsettlement proves that

the expansion of the English stage into new settings cannot be understood apart from the colonial strategies for representing

place that informed these representations
