My Novel 12:

Joseph Roth Joseph Roth, 2012-01-09 The monumentality of this biographical work further establishes Joseph Roth with Kafka Mann and Musil in the twentieth century literary canon Who would have thought that seventy three years after Joseph Roth's lonely death in Paris new editions of his translations would be appearing regularly Roth a transcendent novelist who also produced some of the most breathtakingly lyrical journalism ever written is now being discovered by a new generation Nine years in the making this life through letters provides us with our most extensive portrait of Roth's calamitous life his father's madness his wife's schizophrenia his parade of mistresses each more exotic than the next and his classic westward journey from a virtual Hapsburg shtetl to Vienna Berlin Frankfurt and finally Paris Containing 457 newly translated letters along with eloquent introductions that richly frame Roth's life this book brilliantly evokes the crumbling specters of the Weimar Republic and 1930s France Displaying Roth's ceaselessly inventive powers it finally charts his descent into despair at a time when the word had died and men bark like dogs

Space and Narrative in the Nineteenth-Century British Historical Novel Tom Bragg, 2016-03-31 Demonstrating that nineteenth century historical novelists played their rational trustworthy narrators against shifting and untrustworthy depictions of space and place Tom Bragg argues that the result was a flexible form of fiction that could be modified to reflect both the different historical visions of the authors and the changing aesthetic tastes of the reader Bragg focuses on Scott William Harrison Ainsworth and Edward Bulwer Lytton identifying links between spatial representation and the historical novel's multi-generic rendering of history and narrative Even though their understanding of history and historical process could not be more different all writers employed space and place to mirror narrative stimulate discussion interrogate historical inquiry or otherwise comment beyond the rational factual narrator's point of view Bragg also traces how landscape depictions in all three authors' works inculcated heroic masculine values to show how a dominating theme of the genre

endures even through widely differing versions of the form In taking historical novels beyond the localized questions of political and regional context Bragg reveals the genre s relevance to general discussions about the novel and its development Nineteenth century readers of the novel understood historical fiction to be epic and serious moral and healthful patriotic but also universal Space and Narrative in the Nineteenth Century British Historical Novel takes this readership at its word and acknowledges the complexity and diversity of the form by examining one of its few continuous features a flexibly metaphorical valuation of space and place **Catalogue of the Illinois state library.
