An Lynette Carrington-Cox, Every now and then a new book is released and people stand in long lines with great anticipation some even camp outside the bookstore overnight waiting to purchase a copy Television news sometimes captures the pictures of people pushing and shoving into the stores to get their hands on that book and within a few days they have read every line As I look at these lines of people I have often thought Now what book could get me so excited that I would stand in line for hours to get a copy and then lose sleep trying to read every word It would have to be a book filled with essential long lasting lifesaving information Its author has to be lovable and all knowing and the information has to be crucial to my existence now and in the future Then the thought flashes through my mind there is such a book available free for the asking but there are no long lines of eager excited people waiting to get their hands on it Is it possible that most people really do not know what is in this book This book is none other than the Bible The Bible is the most important book that has been written and the most important book that we will ever read This book reveals the history of God s plan of redemption **Journal of the Derbyshire Archaeological and Natural History Society** Derbyshire Archaeological Society,1888 List of members in each volume **On the Road to Being There** ,2006-08-01 This volume consists of a collection of twelve empirical studies that address theoretical and practical issues relating to pilgrimage and tourism activities in late modernity As a contribution to the Religion and Social Order series sponsored by the Association for the Sociology of Religion these studies are particularly directed to assessing both the role of religion in the pilgrimage tourism nexus and the ways in which religious expressions have changed as a result of the technological and social changes of late modernity that affect human behavior in a more general sense The chapters address neo pagan pilgrimage tours to ancient pagan temples travels to spiritual healers the development of historical sites by American religious movements of nineteenth century origin labyrinths pilgrimages that emphasize walking a journey rather than visiting buildings virtual pilgrimage the Roman Jubilee of 2000 Ky to s Gion Festival and similar topics The Seductions of Pilgrimage Michael A. Di Giovine,David Picard,2016-03-09 The Seductions of Pilgrimage explores the simultaneously attractive and repellent beguiling and alluring forms of seduction in pilgrimage It focuses on the varied discursive imaginative and practical mechanisms of seduction that draw individual pilgrims to a pilgrimage site the objects places and paradigms that pilgrims leave behind as they embark on their hyper meaningful travel experience and the often unforeseen elements that lead pilgrims off their desired course Presenting the first comprehensive study of the role of seduction on individual pilgrims in the study of pilgrimage and tourism it will appeal to scholars of anthropology cultural geography tourism heritage and religious studies Sermons, Or Homilies, Appointed to be Read in Churches in the Time of Queen Elizabeth of Famous Memory Church of England,1815 *The Living Church* ,1961 *Travel, Time, and Space in the Middle Ages and Early Modern Time* Albrecht Classen,2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many

different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual s self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women s movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen s activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis
