Oskar Schlemmer Ina Conzen, Staatsgalerie Stuttgart, 2014 Oskar Schlemmer 1888-1943 was one of the most versatile all-rounders of the last century and as unusual as a painter as he was as a sculptor draughtsman graphic artist stage designer wall designer creator of epochal dance projects and author His vision was the new man living in functional architecture thinking clearly and acting clearly in the modern age which would never again sink into the chaos of war The catalogue accompanying the first comprehensive Schlemmer retrospective for almost forty years presents over 250 high quality works in particular the seven original costumes of the Triadisches Ballett Triadic Ballet together with rare documents of the time The connection between the all-encompassing attempts at reform of the Bauhaus are discussed as well as Schlemmer's vain attempts to reconcile his unpolitical art with the Nazi dictatorship's ideas of state-controlled art The focus will be directed towards Schlemmer's lofty ethical demands which always regarded man typified as a Kunstfigur artist-ic figure as the measure of all things Paintings, Watercolors, Drawings, Sculpture and Prints by Oskar Schlemmer Oskar

Architecture as a Performing Art Marcia Feuerstein, Gray Read, 2016-04-15 How do buildings act with people and among people in the performances of life This collection of essays reveals a deep alliance between architecture and the performing arts uncovering its roots in ancient stories and tracing a continuous tradition of thought that emerges in contemporary practice With fresh insight the authors ask how buildings perform with people as partners rather than how they look as formal compositions They focus on actions the door that offers the possibility of making a dramatic entrance the window that frames a scene and the city street that is transformed in carnival The essays also consider the design process as a performance improvised among many players and offer examples of recent practice that integrates theater and dance This collection advances architectural theory history and criticism by proposing the lens of performance as a way to engage the multiple roles that buildings can play without reducing them to functional categories By casting architecture as spatial action rather than as static form these essays open a promising avenue for future investigation For architects the essays propose integrating performance into design through playful explorations that can reveal intense relationships between people and place and among people in place Such practices develop an architectural imagination that intuitively asks How might people play out their stories in this place and How might this place spark new stories Questions such as these reside in the heart of all of the essays presented here Together they open a position in the intersection between everyday life and staged performance to rethink the role of architectural design
