Partial Justice Nicole Rafter, 2017-07-05 Contemporary Research on crime prisons and social control has largely ignored women Partial Justice the only full scale study of the origins and development of women's prisons in the United States traces their evolution from the late eighteenth century to the present day It shows that the character of penal treatment was involved in the very definition of womanhood for incarcerated women a definition that varied by race and social class Rafter traces the evolution of women's prisons showing that it followed two markedly different models Custodial institutions for women literally grew out of men's penitentiaries starting from a separate room for women Eventually women were housed in their own separate facilities a development that ironically inaugurated a continuing history of inmate neglect Then later in the nineteenth century women convicted of milder offenses such as morals charges were placed into a new kind of institution The reformatory was a result of middle class reform movements and it attempted to rehabilitate to a degree unknown in men's prisons Tracing regional and racial variations in these two branches of institutions over time Rafter finds that the criminal justice system has historically meted out partial justice to female inmates Women have benefited in neither case Partial Justice draws in first hand accounts legislative documents reports by investigatory commissions and most importantly the records of over 4 600 female prisoners taken from the original registers of five institutions This second edition includes two new chapters that bring the story into the present day and discusses measures now being used to challenge the partial justice women have historically experienced

The Amateur Abroad. The Record of a Summer Tour in Europe George Washington Tryon, 2025-07-11 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Florence Nightingale Florence Nightingale, 2009-11-17 Florence Nightingale is famous as the lady with the lamp in the Crimean War 1854-56 There is a massive amount of literature on this work but as editor Lynn McDonald shows it is often erroneous and films and press reporting on it have been even less accurate The Crimean War reports on Nightingale's correspondence from the war hospitals and on the staggering amount of work she did post war to ensure that the appalling death rate from disease higher than that from bullets did not recur This volume contains much on Nightingale's efforts to achieve real reforms

Mysteries of Sex Mary P. Ryan, 2009-01-06 In a sweeping synthesis of American history Mary Ryan demonstrates how the meaning of male and female has evolved changed and varied over a span of 500 years and across major social and ethnic boundaries She traces how at select moments in history perceptions of sex difference were translated into complex and mutable patterns for differentiating women and men How those distinctions were drawn and redrawn affected the course of American history more generally Ryan recounts the construction of a modern gender regime that sharply divided male from female and created modes of exclusion and inequity The divide between male and female blurred in the twentieth century as women entered the public domain massed in the

labor force and revolutionized private life This transformation in gender history serves as a backdrop for seven chronological chapters each of which presents a different problem in American history as a quandary of sex Ryan s bold analysis raises the possibility that perhaps if understood in their variety and mutability the differences of sex might lose the sting of inequality
