Barrera, 2025-09-24 In *Race and Class in the Southwest and Other Essays* Mario Barrera puts forth his seminal theory of racial inequality based on a synthesis of class and colonial analysis together with several essays and selections from Barrera's memoir that show how his thinking developed throughout his work Reprinted here for the first time after becoming a modern classic of Chicano studies *Race and Class in the Southwest* focuses on the economic foundations of inequality as they have affected Chicanos in the Southwest from the Mexican American War to the present Barrera reviews the economic history of Chicanos their relegation to a subordinate position in the labor force segmented along racial lines their displacement from the land the effects of waves of immigration from Mexico the role of an emerging Chicano middle class and state policies designed to reproduce the subordinate status of Chicanos He reviews competing theories of racial inequality and concludes that an internal colonialism model that focuses on the institutional subordination of Chicanos offers the greatest explanatory value for understanding the political economy of Chicanos in the Southwest The Editors Rodolfo Torres and William I Robinson provide both an important historical and contextual introduction to the work as well as thorough annotation that brings the scholarship into contemporary conversation with further theoretical development and highlights Barrera's significant contribution to recent and new debates that reflect his legacy at a time of rising social inequalities political conflict and mass migration into the United States from Latin America [Race and Class in the Southwest and Other Essays](#) Mario Barrera, 2025-09-24 In *Race and Class in the Southwest and Other Essays* Mario Barrera puts forth his seminal theory of racial inequality based on a synthesis of class and colonial analysis together with several essays and selections from Barrera's memoir that show how his thinking developed throughout his work Reprinted here for the first time after becoming a modern classic of Chicano studies *Race and Class in the Southwest* focuses on the economic foundations of inequality as they have affected Chicanos in the Southwest from the Mexican American War to the present Barrera reviews the economic history of Chicanos their relegation to a subordinate position in the labor force segmented along racial lines their displacement from the land the effects of waves of immigration from Mexico the role of an emerging Chicano middle class and state policies designed to reproduce the subordinate status of Chicanos He reviews competing theories of racial inequality and concludes that an internal colonialism model that focuses on the institutional subordination of Chicanos offers the greatest explanatory value for understanding the political economy of Chicanos in the Southwest The editors Rodolfo D Torres and William I Robinson provide both an important historical and contextual introduction to the work as well as thorough annotation that brings the scholarship into contemporary conversation with further theoretical

development and highlights Barrera's significant contribution to recent and new debates that reflect his legacy at a time of rising social inequalities, political conflict, and mass migration into the United States from Latin America

Democracy and Empire Inés Valdez, 2023-09-07 Reconceptualizes central notions in political theory to make sense of the systems of imperial popular sovereignty and self-determination

New Frontiers in Ethnography Sam Hillyard, 2010-11-04 Addresses continuities and innovations within the ethnographic canon This title uses Hammersley's 1991 book *What's Wrong with Ethnography* to open and situate the debate and engages with contemporary debates and arguments on both sides of the Atlantic

Colored Men and Hombres Aquí Michael A. Olivas, 2020-04-28 This collection of ten essays commemorates the 50th anniversary of an important but almost forgotten U.S. Supreme Court case *Hernandez v. Texas*, 347 U.S. 475 (1954), the major case involving Mexican Americans and jury selection published just before *Brown v. Board of Education* in the 1954 Supreme Court reporter. This landmark case, the first to be tried by Mexican American lawyers before the U.S. Supreme Court, held that Mexican Americans were a discrete group for purposes of applying Equal Protection. Although the case was about discriminatory state jury selection and trial practices, it has been cited for many other civil rights precedents in the intervening 50 years. Even so, it has not been given the prominence it deserves in part because it lives in the shadow of the more compelling *Brown v. Board* case. There had been earlier efforts to diversify juries reaching back at least to the trial of Gregorio Cortez in 1901 and continuing with efforts by the legendary Oscar Zeta Acosta in Los Angeles in the 1960s. Even as recently as 2005, there has been clear evidence that Latino participation in the Texas jury system is still substantially unrepresentative of the growing population. But in a brief and shining moment in 1954, Mexican American lawyers prevailed in a system that accorded their community no legal status and no respect. Through sheer tenacity, brilliance, and some luck, they showed that it is possible to tilt against windmills and slay the dragon. Edited and with an introduction by University of Houston law scholar Michael A. Olivas, *Colored Men and Hombres Aquí* is the first full-length book on this case. This volume contains the papers presented at the *Hernandez* at 50 conference which took place in 2004 at the University of Houston Law Center and also contains source materials, trial briefs, and a chronology of the case

Walls and Mirrors David G. Gutiérrez, 1995-03-27 Covering more than one hundred years of American history, *Walls and Mirrors* examines the ways that continuous immigration from Mexico transformed and continues to shape the political, social, and cultural life of the American Southwest. Taking a fresh approach to one of the most divisive political issues of our time, David Gutiérrez explores the ways that nearly a century of steady immigration from Mexico has shaped ethnic politics in California and Texas, the two largest U.S. border states. Drawing on an extensive body of primary and secondary sources, Gutiérrez focuses on the complex ways that their pattern of immigration influenced Mexican Americans' sense of social and cultural identity and, as a consequence, their politics. He challenges the most cherished American myths about U.S. immigration policy, pointing out that contrary to rhetoric about alien invasions, U.S. government and regional business interests have actively recruited Mexican and other

foreign workers for over a century thus helping to establish and perpetuate the flow of immigrants into the United States In addition Gutierrez offers a new interpretation of the debate over assimilation and multiculturalism in American society Rejecting the notion of the melting pot he explores the ways that ethnic Mexicans have resisted assimilation and fought to create a cultural space for themselves in distinctive ethnic communities throughout the southwestern United States

The Palgrave Handbook of Social Movements, Revolution, and Social Transformation Berch Berberoglu, 2018-09-26 This handbook on social movements revolution and social transformation analyzes people's struggles to bring about social change in the age of globalization It examines the origins nature dynamics and challenges of such movements as they aim to change dominant social economic and political institutions and structures across the globe Departing from a theoretical introduction that explores major classical and contemporary theories of social movements and transformation the contributions collected here use a class based approach to examine key cases of social movements rebellions and revolutions worldwide from the turn of the twentieth to the early twenty first centuries Against this wide ranging background the handbook concludes by charting the varied and competing future developments and trajectories of social movements revolutions and social transformations

Chicano Professionals Tamis Hoover Renteria, 2021-12-12 First published in 1998 Writing about Chicano professionals in Los Angeles proves timely for many reasons Anthropologists now venture into the ethnic borderlands of their own western countries rather than encroach on the flexing ethnicities of the third world as they have traditionally done The story of this ethnic elite begins in the 1960s and 1970s when Mexican American students from blue collar backgrounds first entered California colleges and universities in significant numbers This generation of Mexican American students is important however not merely for its increased numbers but rather for the culture it created the culture of Chicanismo the culture of the nationalist Chicano Movement

Chronology of the American West Scott C. Zeman, 2002-05-28 This four part chronology presents the unfolding of the American West from 23 000 B C E to A D 2001 Not long ago the story of the American West was an uncomplicated tale Its theme was The Winning of the West and its plot simply followed Euro Americans as they galloped across the continent But throughout the last two decades historians like Scott C Zeman have begun to examine the story and separate the myths from the facts Today the history of the American West is about the land itself about conquest and colonization about migration and social change Its heroes are not only white men but also women and children and peoples of African Asian Native American and European descent In this up to date chronology readers can explore hundreds of political social and cultural plot points from the arrival of the continent's first migrants more than 20 000 years ago to the Wounded Knee Massacre in 1890 and from the completion of the trans Alaska pipeline in 1977 to the shootings at Columbine High School in 2000
