Race, Class & the Apartheid State Harold Wolpe, 1990 **The Truth of Žižek** Paul Bowman, Richard

Stamp, 2007-05-17 Slavoj Žižek is widely regarded as one of the world's most important contemporary thinkers. His work has contributed dramatically to the reinvention and revivification of many key theoretical and political debates. Indeed, his vociferous and challenging body of work amounts to a sustained ground-breaking terrain-shifting and far-reaching intervention into a large number of academic disciplines, intellectual fields, and cultural debates. *The Truth of Žižek* addresses the rigorous critical assessment demanded by this broad and increasingly influential corpus. This timely and compelling collection of essays from an international team of leading Žižekian scholars addresses the full range of Žižek's theoretical interventions, assessing critically the political, philosophical, psychoanalytical, cultural, and institutional stakes of his work. Each chapter engages with and challenges Žižek's thought to explicate a key aspect of his work, clarifying its importance and challenging its claims through rigorous critique. By focusing on Žižek's contributions to these disciplines, fields, and debates, this collection sets out to diagnose and assess the emergence of a Žižekian moment within contemporary intellectual, cultural, and political events. *The Truth of Žižek* provides the first sustained engagement with and assessment of the significant impact of Žižek's work. This compelling and valuable collection of essays from cutting-edge scholars picks up the gauntlet thrown down by Žižek: the demand that his readers respond with the coldness and cruelty of true friendship.

Predicaments of Knowledge

Suren Pillay, 2024-09 *Predicaments of Knowledge* explores the difficult questions South African universities face after apartheid. Is there a difference between Africanising a university and decolonising a university? What about differences between deracialising and decolonising the curricula taught at universities across disciplines? Through a range of reflections on race, language, colonial, postcolonial, and decolonial knowledge projects from Africa and Latin America, this book explores the pitfalls and possibilities that face a post-apartheid generation inventing the future of knowledge. The distinctions between Africanisation, decolonisation, and deracialisation are often conflated in the political demands put to universities. Suren Pillay emphasises all three as important but distinct imperatives. If an intervention is undertaken with the aim of decolonising the university while actually addressing deracialisation, it can undermine the effort to decolonise. Similarly, if an initiative to Africanise the university does not address decolonisation, both processes can be undermined. Drawing on more than two and a half decades of the author's participation in these debates, these essays aim to intervene in and elucidate questions and predicaments rather than offering blueprints; they are dialogical in spirit, even when polemical in tone. In conversation with existing continental African and Latin American experiences, they offer incisive reflections on current South African debates.

Ethnonationalism in the Contemporary World Daniele Conversi, 2004 Essential reading for anyone interested in problems associated with ethnicity and nationalism, it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity. *The Politics of South African Cricket* Jon Gemmell, 2004-03-31 Jon Gemmell analyses the

The Rule of Law and Governance in Indigenous Yoruba Society John Ayotunde Isola Bewaji,2016-08-22 In The Rule of Law and Governance in Indigenous Yoruba Society John Ayotunde Isola Bewaji has two main goals The first is to provide an exploration of aspects of indigenous Yoruba philosophy of law The second is to relate this philosophy of law to the Yoruba indigenous traditions of governance with a view to appreciating the relevance of the Yoruba traditions of law and governance to contemporary African experiments with imported Western democracy in the 21st century This book is devoted to what can be described as a juridical forensic investigation of Nigeria's predicament of developmental deficit leading to gross and unconscionable impoverishment of large segments of the population in the midst of so much natural resources and abundant human capital using Yoruba indigenous legal traditions as reflective template Bewaji urges that Africa has to take seriously the necessity of obedience observance enforcement and operation of law as no respecter of persons groups affiliations and pedigrees as was in the case in the societies founded by our ancestors rather than the present scenario whereby the highest bidder procures semblances of justice from a crooked system of common law which was never designed to be fair equitable and just to the disadvantaged in society
