Sharon M. Pitcher, Bonnie Mackey, 2013-03-21 Advances in literacy require collaboration between all of a school's stakeholders. This book harnesses the latest research and takes into consideration CCSS to show how to make that collaboration a reality. Authentic literacy practice is crucial to preparing all students to be successful both in the workplace and college in the 21st century. Insisting that this literacy achievement will only happen when librarians, teachers, literacy coaches, and administrators work together in their schools, *Collaborating for Real Literacy* addresses the role of each instructional leader individually and examines the importance of the group collectively in bolstering the literacy of all students. Practical ways to support the teaching of the Common Core State Standards (CCSS) are infused throughout every chapter. In this second edition of the book, core chapters on scaffolding literacy centers, family literacy, English language learners, comprehension assessment, writing, and discussion have been updated based on current research and CCSS. Each of these chapters now offers suggestions for literacy coaches. Also new are recommendations for grades K-5 and 6-12 demonstrating specific ways to apply instructional ideas to different age levels and providing materials that can be used for the instruction. Additionally, three new chapters have been added with real literacy instructional ideas for content area reading and Response to Intervention support for struggling readers. *Developmental Cognitive Science Goes to School*

Nancy L. Stein, Stephen Raudenbush, 2013-08-15 This book addresses core issues related to school learning and the use of developmental cognitive science models to improve school-based instruction. The contributors comprise a veritable who's who of leading researchers and scientists who are broadly trained in developmental psychology, cognitive science, economics, sociology, statistics, and physical science and who are using basic learning theories from their respective disciplines to create better learning environments in school settings. *Developmental Cognitive Science Goes to School* presents evidence-based studies that describe models of complex learning within specific subject area disciplines, focuses on domain knowledge and how this knowledge is structured in different domains across the curriculum, gives critical attention to the topic of the ability to overcome errors and misconceptions, addresses models that should be used to begin instruction for populations of children who normally fail at schooling. This is a must-read volume for all researchers, students, and professionals interested in evidence-based educational practices and issues related to domain-specific teaching and learning. **Handbook of Reading Disability Research**

Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities, this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective. Emphasizing that learning to read proficiently is a long-term developmental process involving many interventions of various kinds, all keyed to individual developmental needs, it addresses traditional questions: What is the nature or causes of reading disabilities? How are reading disabilities assessed? How should reading disabilities be remediated? To what extent is remediation possible, but from multiple or alternative perspectives? Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational

research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Trivializing Teacher Education Dale D. Johnson, Bonnie Johnson, Stephen J. Farenga, Daniel Ness, 2005-07-21

Trivializing Teacher Education The Accreditation Squeeze presents a critical analysis of the National Council for Accreditation of Teacher Education NCATE This accreditation organization has been in existence for 50 years and claims to accredit approximately 700 teacher education programs that prepare two thirds of the nation's teachers There is no convincing research however that NCATE's stamp of approval makes a difference in teacher preparation programs or in beginning teachers' competencies There is evidence that NCATE is masterful at self promotion marketing and aligning itself with policy makers and politicians This book illustrates the questionable NCATE processes and requirements and exposes the exorbitant costs accrued by universities seeking NCATE accreditation It points out that the NCATE standards do not address the major issues that impact teaching and learning The book highlights NCATE's support of teacher testing in the face of evidence that such tests lack predictive validity It shows how NCATE is reaching out to accredit for profit organizations and how it sends its evaluators to review international programs in the Middle East The book calls on NCATE to make the professional backgrounds of its examiners reviewers board members and staff transparent It addresses the attention teacher educators must devote to mindless trivial NCATE demands that usurp time that should be spent on their students and their research This book urges teacher educators college faculties and administrators state education officials and legislators parents of school age children and concerned citizens to open their eyes to this powerful organization NCATE and to examine what it has done to teacher education in the last half century
