Faith in Politics Bryan T. McGraw, 2010-06-10 No account of contemporary politics can ignore religion The liberal democratic tradition in political thought has long treated religion with some suspicion regarding it as a source of division and instability Faith in Politics shows how such arguments are unpersuasive and dependent on questionable empirical claims rather than being a serious threat to democracies' legitimacy, stability and freedom religion can

be democratically constructive Using historical cases of important religious political movements to add empirical weight Bryan McGraw suggests that religion will remain a significant political force for the foreseeable future and that pluralist democracies would do well to welcome rather than marginalize it

Dialogue and the New Cosmopolitanism Fred Dallmayr,2022-11-28 Dialogue and the New Cosmopolitanism Conversations with Edward

Demenchonok stands in opposition to the doctrine that might makes right and that the purpose of politics is to establish domination over others rather than justice and the good life for all In the pursuit of the latter goal the book stresses the importance of dialogue with participants who take seriously the views and interests of others and who seek to reach a fair solution In this sense the book supports the idea of cosmopolitanism which by contrast to empire involves multi lateral cooperation and thus the quest for a just cosmopolis The international contributors to this volume with their varied perspectives are all committed to this same quest Edited by Fred Dallmayr the chapters take the form of conversations with Edward Demenchonok a well known practitioner of international and cross cultural philosophy The conversations are
