Renaissance and Reformation. A Survey of European History Between 1450 and 1660.... Vivian Hubert Howard Green (historienne).),1964 History ,1954 **Renaissance and Reformation** Vivian Hubert Howard Green,1964 The Publishers Weekly ,1964 Literature as Social Action Pamela Currie,1995 The clergy and professional educators were preeminent traditionalists while modernization was promoted by certain princely courts and by the lawyer administrators in their service **Paperbound Books in Print** ,1992 The Impact of the European Reformation Ole Peter Grell,2017-05-15 Recent decades have witnessed the fragmentation of Reformation studies with high level research confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume counteracts this centrifugal trend and provides a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Considering the impact of the Reformation on political culture and examining the relationship between rulers and ruled the book also examines the church and its personnel another sphere of life that was entirely transformed by the Reformation Important aspects of knowledge and belief are discussed in terms of scientific knowledge and technological progress juxtaposed with analyses of elite and popular belief which demonstrates the limitations of Weber's notion of the disenchantment of the world Together they indicate the diverse directions in which Reformation scholarship is now moving while reminding us of the need to understand particular developments within a broader European context demonstrating that movements for religious reform left no sphere of European life untouched **Renaissance and Reformation** Vivian Hubert Howard Green,1952 **The Graduate School** University of South Carolina,1967 □□□□□□□□ ,1974 **Later Medieval Europe** Daniel Waley,Peter Denley,2013-11-26 From the divine right of kings to the political

Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur ,1976 *The Reformation and the Book* Jean-François Gilmont,2016-12-05 Although the connection between the invention of printing and the Protestant Reformation of the sixteenth century has long been a scholarly commonplace there is still a great deal of evidence about the relationship to be presented and analysed This collection of authoritative reviews by distinguished historians deals with the role of the book in the spread of the Reformation all over the continent identifying common European experiences and local peculiarities It summarises important recent work on the topic from every major European country introducing English speakers to much important and previously inaccessible research *An Urban History of The Plague* Karen Jillings,2018-04-17 As a medical economic spiritual and demographic crisis plague affected practically every aspect of an early modern community whether on a local regional or national scale Its study therefore affords opportunities for the reassessment of many aspects of the pre modern world This book examines the incidence and effects of plague in an early modern Scottish community by analysing civic medical and social responses to epidemics in the north east port of Aberdeen focusing on the period 1500 1650 While Aberdeen s experience of plague was in many ways similar to that of other towns throughout Europe certain idiosyncrasies in the city make it a particularly interesting case study which challenges several assumptions about early modern mentalities
