Guidelines: Newly Qualified Doctor David Fisher, Liora Wittner, Deborah Gill, 2023 Medical practice in the modern age requires familiarity with clinical guidelines and standards which are often published separately in long and discursive documents. This new addition to the Oxford Medical Publications summarises the key clinical practice guidelines which all final year medical students and Foundation Year 1 and 2 doctors should know when managing common conditions. Logically organised by medical specialty, the reader can quickly familiarise themselves with the key principles of diagnosis and management at the appropriate level for beginning a new rotation on the wards. Each guideline summary is tailored to the education level expected of doctors in their first two years of training with clear instructions for when a more senior colleague should be called upon to help. Written by a team of junior doctors under the supervision of senior clinicians, this is the first resource to distil a range of guidelines from different locations such as NICE, SIGN and more into an easily digestible format. Practical and user friendly with tables, diagrams, flowcharts and algorithms to convey the key points quickly and easily. Oxford Clinical Guidelines is the new invaluable resource for every final year medical student and doctor at the beginning of their training.
