The Mogul Meets Her Match Julia Underwood, 2024-12-10

CEO Eleanor Clairice Beauchamp's rules for business

- 1 Business always comes first
- 2 Succeed
- 3 Don't fail
- 4 Never fall in love

Clairice Claire Beauchamp has spent her adult life escaping poverty and reaching the top of her industry by adhering to her rules. But staying there may prove to be the most difficult challenge yet. Lotus Enterprises' next big project requires owning an entire city block and one last property owner refuses to sell. So Claire goes undercover to scope out the café owner. She expects to discover the source of her resistance and negotiate a deal. She doesn't expect to be so drawn to her. Abby Pita is finally her own boss after achieving her dream of owning Sunshine and Sweets Café. She has no interest in the buyout offers, especially not as her attraction to her newest customer, Claire, is growing. Claire seems to feel their connection too, and Abby has hope that there could be a future for them. When the truth is revealed, will Claire break all her rules or both their hearts?

Cognitive Systems - Information Processing Meets Brain Science Richard G.M. Morris, Lionel Tarassenko, Michael Kenward, 2005-08-16

Cognitive Systems Information Processing Meets Brain Science presents an overview of the exciting, truly multidisciplinary research by neuroscientists and systems engineers in the emerging field of cognitive systems, providing a cross-disciplinary examination of this cutting-edge area of scientific research. This is a great example of where research in very different disciplines touches to create a new, emerging area of research. The book illustrates some of the technical developments that could arise from our growing understanding of how living cognitive systems behave and the ability to use that knowledge in the design of artificial systems. This unique book is of considerable interest to researchers and students in information science, neuroscience, psychology, engineering, and adjacent fields. Represents a remarkable collection of relevant experts from both the life sciences and computer science. Includes state-of-the-art reviews of topics in cognitive systems from both a life sciences and a computer science perspective. Discusses the impact of this research on our lives in the near future.

A Law of Peoples for Recognizing States Chris Naticchia, 2016-11-02

Which political entities should the international community recognize as member states, granting them the rights and powers of statehood and entitling them to participate in formulating, adjudicating, and implementing international law? What criteria should it use, and are those criteria defensible? From Kosovo, Palestine, and Taiwan to South Sudan, Scotland, South Ossetia, Abkhazia, and Catalonia, these questions continuously arise and constantly challenge the international community for a consistent, principled stance. In response to this challenge, Chris Naticchia offers a social contract argument for a theory of international recognition, a normative theory of the criteria that states and international bodies should use to recognize political entities as member states of the international community. Regardless of whether political entities adequately respect human rights or practice democracy, he argues, we must recognize a critical mass of them to get international institutions working. Then we should recognize secessionist entities that suffer

from persistent grave and widespread human rights abuses by their government and under certain conditions minority nations within multinational states that seek independence We must also recognize entities whose recognition would contribute to the economic development of the least well off entities Drawing on the social contract tradition and developing a broadly Rawlsian view A Law of Peoples for Recognizing States will both challenge and appeal to a broad readership in political philosophy international law and international relations
