**Lucien Leuwen Book** Stendahl,1950-01-01      **Lucien Leuwen** Stendhal,1961-01-01      Lucien Leuwen Stendhal,1982-01-01      **In the Court of the Pear King** Sandy Petrey,2018-07-05 The period 1830 1832 witnessed a remarkable series of cultural and political milestones in France In 1830 a revolution overturned one monarchy only to replace it with another In 1831 Charles Philippon s caricature of Louis Philippe the new monarch as a pear achieved extraordinary popularity Drawn on walls from one end of France to another the pear caricature became a national obsession In that same year George Sand moved from the provinces to Paris and challenged gender stereotypes by adopting men s clothes and writing fiction in a man s voice During 1830 1832 Stendhal and Balzac developed the techniques of the realist novel that still dominate much of the world s fiction Sandy Petrey explores the factors accounting for such consequential innovations in so short a time so restricted a space In Petrey s view these disparate events betoken a common recognition of society s capacity to make and unmake what it recognizes as real Petrey s first two chapters explore the popularity of the pear caricature The remaining chapters focus on Balzac Stendhal and Sand addressing these writers concern with society s power to define and transform the identity of its members For Petrey their work continually recalls the hybrid character of Philippon s pear both totally unlike the king and the king s spitting image While the French government declared the July Revolution a nonevent and the July Monarchy an incontrovertible fact French fiction concentrated on society s power to declare an individual a nonperson or to make presence out of absence plenitude out of emptiness      **Essays in Aesthetics** Gärard Genette,2005-01-01 Over the course of the past forty years G rard Genette s work has profoundly influenced scholars of narratology poetics aesthetics and literary and cultural criticism and he continues to be one of France s most influential theorists The eighteen pieces in Essays in Aesthetics are of international interest because they are concerned either with universal aesthetic problems the receiver s relationship to an aesthetic object abstract art the role of repetition in aesthetics genre theory and the rapport between literature and music or with specific moments in the work of a well known writer or artist such as Stendhal Proust Manet Pissarro and Canaletto Essays in Aesthetics contains a wealth of material related to the appreciation of beauty by one of the subtlest and most original minds working in aesthetics today Genette knows the fine arts as well as he knows literature and as a result has innovative things to say to readers in that field as well as to philosophers and literary scholars      **The Doctor-Patient Relationship and the Nineteenth-Century French Novel** Sarah Jones,2025-03-29 The Doctor Patient Relationship and the Nineteenth Century French Novel analyses the representation of the doctor patient relationship in the nineteenth century French novel notably in the words of Balzac Sand Stendhal and Zola It argues that the doctor patient relationship is represented in these novels as a site of interpersonal negotiation wherein the meaning of medical authority embodied experience and the spectre of illness and pain are mediated and reimaged This book highlights how the doctor patient relationship is often idealized by the novel wherein the doctor is characterised as a

both dedicated to his patients and local community as well as being a God like master of life death and medical knowledge The volume suggests that the doctor patient encounter is often depicted as a separate although inherently related concept that undermines this idealisation of medical relationships The doctor patient encounter thereby questions the hegemonic power of medical practitioners over their patients by pointing towards how novels depict patients as resisting and even manipulating their doctors The book identifies and explores other important themes within the doctor patient relationship such as the medical gaze regard m dical power relationships and the use of embodied metaphor In particular the book highlights how the doctor patient relationship is often a confrontation between scientific knowledge and the experience of gender and disability The book s conceptual framework is derived from the critical medical humanities and the volume revitalises and reframes the doctor patient relationship by considering the intrinsic slippage between idealised relationships and critical encounters The book uses close readings of its corpus to understand how medical practice is debated and undermined concurrently with its idealisation It places literary works within a new historical context by reading across novels within their medical and scientific context and situates them for the first time in the intellectual context of the critical medical humanities The book points forward to how nineteenth century French novels can reform how the critical medical humanities views the medical relationship and the potential impact on real world patients

**Unexceptional Politics** Emily Apter,2018-02-06 A new vision of politics below the radar One way to grasp the nature of politics is to understand the key terms in which it is discussed Unexceptional Politics develops a political vocabulary drawn from a wide range of media political fiction art film and TV highlighting the scams imbroglis information trafficking brinkmanship and parliamentary procedures that obstruct and block progressive politics The book reviews and renews modes of thinking about micropolitics that counter notions of the

state of exception embedded in theories of the political from Thomas Hobbes to Carl Schmitt Emily Apter develops a critical model of politics behind the scenes a politics that operates outside the norms of classical political theory She focuses on micropolitics defined as small events happening in series that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist parliamentary systems even as they secure their reproduction and longevity Apter's experimental glossary is arranged under headings that look at the apparently incidental immaterial and increasingly virtual practices of politicking obstruction obstinacy psychopolitics managed life serial politics Such terms frame an argument for taking stock of the realization that we really do not know what politics is where it begins and ends or how its micro events should be described

Stendhal Victor Brombert, 2018-03-09 Victor Brombert is a lion in the study of French literature and in this classic of literary criticism he turns his clear and perspicacious gaze on the works of one of its greatest authors Stendhal Best remembered for his novels *The Red and the Black* and *The Charterhouse of Parma* Stendhal is a writer of extraordinary insight into psychology and the many shades of individual and political liberty Brombert has spent a lifetime reading and teaching Stendhal and here by focusing on the seemingly contradictory themes of inner freedom and outer constraint within Stendhal's writings he offers a revealing analysis of both his work and his life For Brombert Stendhal's work is deeply personal elsewhere he has written about the myriad connections between Stendhal's ironic inquiries into identity and his own boyhood in France on the brink of World War II Proceeding via careful and nuanced readings of passages from Stendhal's fiction and autobiography Brombert pays particular attention to style tone and meaning Paradoxically Stendhal's heroes often feel most free when in prison and in a statement of stunning relevance for our contemporary world Brombert contends that Stendhal is far clearer than any writer before him on the crisis and contradictions of modern humanism that render political freedom illusory Featuring a new introduction in which Brombert explores his earliest encounters with Stendhal the beginnings of his affair during a year spent as a Fulbright scholar in Rome Stendhal remains a spirited elegant and resonant account

*The Strange Liberalism of Alexis de Tocqueville* Roger Boesche, 2019-05-15 The *Strange Liberalism of Alexis de Tocqueville* places Tocqueville's political thought in the context of his time and place and shows why his ideas defy easy classification Responding to the twentieth century tendency to impose anachronistic political categories on Tocqueville Roger Boesche reminds us that like Stendhal Balzac Hugo Lamartine Flaubert and other writers of his generation he was a nineteenth century Frenchman reacting to contemporary French concerns aspirations and anxieties

*Circumstances* David F. Bell,1993-01-01     Stendhal ,     **The Rise of Office Literature** Daniel

Jenkin-Smith,2025-03-20 Explores the social and cultural history of bureaucratization in 19th century Britain and France via the evolving literary portrayal of office life Literary critics have long cited the clerk in 19th century literature as an emblem of a nascent lower middle class or of shifting gender roles in the world of work Moreover there is growing critical interest in the influence of rapidly evolving organizational systems and data networks on this period s culture By refocusing on the point at which these interests meet the office *The Rise of Office Literature* plays a synthesizing role identifying this workplace as a point of convergence between the abstract and the quotidian between structures and workers By exploring the history of office literature a forgotten nineteenth century literary genre whose exemplars focus primarily on office life Daniel Jenkin Smith argues that the portrayal of new labour practices intellectual forms and bureaucratic technologies in English and French literature served to problematize existing narrative conventions while also enabling new developments in literary aesthetics Office literature s unique position between the ongoing process of nineteenth century bureaucratization and the rapidly evolving realist and satirical traditions of this period s literature means that it offers an especially insightful perspective onto the interrelation of aesthetic intellectual economic and social history     *Princeton Alumni Weekly* ,1950

*Real Time* David F. Bell,2010-10-01 In *Real Time* David F Bell explores the decisive impact the accelerated movement of people and information had on the fictions of four giants of French realism Balzac Stendhal Dumas and Zola Nineteenth century technological advances radically altered the infrastructure of France changing the ways ordinary citizens and literary characters viewed time space distance and speed The most influential of these advances included the improvement of the stagecoach the growth of road and canal networks leading to the advent of the railway and the increasing use of mail and of the optical telegraph Citing examples from a wide range of novels and stories Bell demonstrates the numerous ways in which these trends of acceleration became not just literary devices and themes but also structuring principles of the novels themselves Beginning with both the provincial and the Parisian communications networks of Balzac Bell proceeds to discuss the roles of horses and optical telegraphs in Stendhal and the importance of domination of communication channels to the characters of Dumas whose *Count of Monte Cristo* might be seen as the ultimate fictional master of this accelerated culture

Finally Bell analyzes the cinematic vision created by the arrival of the railroad as depicted by Zola in *La B te Humaine*

**Politics and Narratives of Birth** Carol A. Mossman, 1993-04 This book is a feminist analysis which combines a psychoanalytic perspective on catastrophic birth with the politics of reproduction in the emergent democracy of nineteenth century France It focuses on three major thinkers whose personal relation to origins is problematic Rousseau Constant and Stendhal and also includes a broad reading of the nineteenth century novel within the frame of pathological generation giving special attention to works by Michelet and Zola Professor Mossman identifies important areas of interaction between production and reproduction at the level of aesthetic form and between private birth related discourse and the ideology of the birth of democracy Within the context of the collapse of ancien regime France the nascent ideology of motherhood collides with modes of discourse that invade and colonize the maternal body generating a considerable burden of anxiety expressed in the nineteenth century French novel
