Mutinous Women Joan DeJean, 2022-04-19 The secret history of the rebellious Frenchwomen who were exiled to colonial Louisiana and found power in the Mississippi Valley In 1719 a ship named La Mutine the mutinous woman sailed from the French port of Le Havre bound for the Mississippi It was loaded with urgently needed goods for the fledgling French colony but its principal commodity was a new kind of export women Falsely accused of sex crimes these women were prisoners shackled in the ship's hold Of the 132 women who were sent this way only 62 survived But these women carved out a place for themselves in the colonies that would have been impossible in France making advantageous marriages and accumulating property Many were instrumental in the building of New Orleans and in settling Louisiana Alabama Arkansas Illinois and Mississippi Drawing on an impressive range of sources to restore the voices of these women to the historical record *Mutinous Women* introduces us to the Gulf South's Founding Mothers

Ship Island, Mississippi Theresa Arnold-Scriber, Terry G. Scriber, 2012-02-17 Ship Island was used as a French base of operations for Gulf Coast maneuvers and later during the War of 1812 by the British as a launching point for the disastrous Battle of New Orleans But most memorably Ship Island served as a Federal prison under the command of Union Major General Benjamin F Butler during the Civil War This volume traces this fascinating and somewhat sinister history of Ship Island The main focus of the book is a series of rosters of the men imprisoned Organized first by the state in which the soldier enlisted and then by the company in which he served entries are listed alphabetically by last name and include information such as beginning rank date and place of enlistment date and place of capture physical characteristics and where possible the fate and postwar occupation of the prisoner

The Selected Works of Louis Becke Louis Becke, In that delightful and exciting book written by Captain Joshua Slocum and entitled *Sailing Alone Round the World* there is a part wherein the adventurous American seaman relates how he protected himself from night attacks by the savages by a simple but efficient precaution It was his custom when he anchored for the night off the snow clad and inhospitable shores of Tierra del Fuego to profusely sprinkle his cutter s deck with sharp tacks and then calmly turn in and sleep the sleep of the just for even the horny soles of the Fuegian foot is susceptible to the business end of a tack and as I read Slocum s story I smiled and thought of dear old Yorke and the Francesco I first met Yorke early in the seventies Our vessel had run in under the lee of the South Cape of New Britain to wood and water and effect some repairs for in working northward through the Solomon Group on a special mission to a certain island off the coast of New Guinea we had met with heavy weather and had lost our foretopmast In those days there was not a single white man living on the whole of the south coast of New Britain from St George s Channel on the east to Dampier s Straits on the west a stretch of more than three hundred miles and little was known of the natives beyond the fact of their being treacherous cannibals In Blanche Bay only on the northern shore was there a settlement of a few adventurous English traders the employees of a rich German company and these were only acquainted with the natives in their own vicinity Even the masters of trading vessels avoided the south coast of the great island not only on account of the dangerous character of its inhabitants but also because there was not they thought anything to tempt them to risk their and their crews lives for the shore nearly everywhere presented a line of dense unbroken forest with but scanty groves of coco palms at long intervals and even had there been many such groves no communication could be had with the people In the wild days of the seventies the practice of cutting up and drying the coconut into what is known as copra had scarcely made any headway in those parts of New Britain New Ireland and the Solomon and New Hebrides Groups which were visited by trading vessels the nuts were turned into oil by a crude and wasteful process known as rotting The captain of our little vessel was one of the oldest and

most experienced trading skippers in the Western Pacific grim resolute and daring but yet cautious of his men's lives if not of his own so when he decided to anchor under the lee of the South Cape he chose a part of the coast which seemed to be but scantily inhabited The dense forest which came down to the water's edge concealed from view any village that might have been near us but the presence of smoke arising from various spots denoted that there were some natives living in the vicinity though we could not see any canoes We brought to about half a mile from the shore Two boats were at once lowered manned and armed and under the captain's guidance set out to search for water which we knew we should have but little difficulty in finding even on the south coast of New Britain which is not nearly so well watered as the northern shore of the island In the captain's boat were six men besides himself I was in charge of the covering boat manned by six native seamen and carrying three water casks all we could stow Pulling in together close to the shore the captain then went ahead my boat following at the regulation distance of fifty yards only four hands rowing in each leaving four men to keep a look out for natives
