technique and the chief excuse for the present addition to the number is the complexity of the subject Its range is so wide it calls for so many and so different capacities in one attempting to discuss it that a new work has more than a chance to meet at least two or three deficiencies in all other treatments I believe that the chief deficiency in most works on fiction technique is that the author unconsciously has slipped from the viewpoint of a writer of a story to that of a reader Now a reader without intention to try his own hand at the game is not playing fair in studying technique and a book on technique has no business to entertain him Accordingly I have striven to keep to the viewpoint of one who seeks to learn how to write stories and have made no attempt to analyze the work of masters of fiction for the sake of the analysis alone Get Your Copy Today **By Cunning and Craft** Peter Selgin, 2012-11 Whether readers are facing the blank pages of their first drafts or struggling to
