Our Dinosaurs Are Dying New American Poetry:

Our Dinosaurs Are Dying Kenan Heise, 1994-12 *The New American Poetry, 1945-1960* Donald Allen, 1999 Donald Allen's prophetic anthology had an electrifying effect on two generations at least of American poets and readers More than the repetition of familiar names and ideas that most anthologies seem to be about here was the declaration of a collective intelligent and thoroughly visionary work in progress the primary example for its time of the anthology as manifesto Its republication today complete with poems statements on poetics and autobiographical projections provides us again with a model of how a contemporary anthology can and should be shaped In these essentials it remains as fresh and useful a guide as it was in 1960 Jerome Rothenberg editor of *Poems for the Millennium* The *New American Poetry* is a crucial cultural document central to defining the poetics and the broader cultural dynamics of a particular historical moment Alan Golding author of *From Outlaw to Classic Canons in American Poetry* *A New Theory for American Poetry* Angus FLETCHER, 2009-06-30 Amid gloomy forecasts of the decline of the humanities and the death of poetry Angus Fletcher a wise and dedicated literary voice sounds a note of powerful tempered optimism He lays out a fresh approach to American poetry at large the first in several decades expounding a defense of the art that will resonate well into the new century Breaking with the tired habit of treating American poets as the happy or rebellious children of European romanticism Fletcher uncovers a distinct lineage for American poetry His point of departure is the fascinating English writer John Clare he then centers on the radically American vision expressed by Emerson and Walt Whitman With Whitman this book insists that the whole theory and nature of poetry needs inspiration from science if it is to achieve a truly democratic vista Drawing variously on Complexity Theory and on fundamentals of art and grammar Fletcher argues that our finest poetry is nature based environmentally shaped and descriptive in aim enabling poets like John Ashbery and other contemporaries to discover a mysterious pragmatism Intense resonant and deeply literary this account of an American poetics shows how today's consumerist and conformist culture subverts the imagination of a free people While centering on American vision the argument extends our horizon striking a blow against all economically sanctioned attacks upon the finer stronger human capacities Poetry the author maintains is central to any coherent vision of life *The New Anthology of American Poetry* Steven Gould Axelrod, Camille Roman, Thomas Travisano, 2003 Volume 1 of this comprehensive anthology features a generous selection of Native American materials then spans the years from the establishment of the American colonies to about 1900 a world on the brink of World War I and the modern era **The New Era in American Poetry** Louis Untermeyer, 1919 For contents see Author Catalog *Don't Call Us Dead* Danez Smith, 2017-09-05 Digte Addresses race class sexuality faith social justice mortality and the challenges of living HIV positive at the intersection of black and queer identity **The Beats, Black Mountain, and New Modes in American Poetry** Matt Theado, 2021-09-15 *The Beats Black Mountain and New Modes of American Poetry* explores correspondences amongst the Black Mountain and Beat Generation writers two of most

well known and influential groups of poets in the 1950s The division of writers as Beat or Black Mountain has hindered our understanding of the ways that these poets developed from mutual influences benefitted from direct relations and overlapped their boundaries This collection of academic essays refines and adds context to Beat Studies and Black Mountain Studies by investigating the groups intersections and undercurrents One goal of the book is to deconstruct the Beat and Black Mountain labels in order to reveal the shifting and fluid relationships among the individual poets who developed a revolutionary poetics in the 1950s and beyond Taken together these essays clarify the radical experimentation with poetics undertaken by these poets

Resistance to Science in Contemporary American Poetry Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science
