Quick To Solve Brainteasers

Atanu Chaudhuri

Quick To Solve Brainteasers:

Quick-to-solve Brainteasers José Julián Mendoza Fernández, 1998 Don't think too hard or you'll never solve these logic puzzles and riddles. The answers to all 187 are easy once you catch the tricky wording. How can you tie a knot in a napkin by holding one end in each hand without letting go of it? Impossible, you say, or your friends will say if you bet them. But cross your arms and hold a tip of the napkin in each hand. When you uncross your arms, the knot will be formed. Now try this riddle: I climbed up a cherry tree where I found cherries. I did not pick cherries nor did I leave cherries. How can you explain this? Answer: I climbed up a cherry tree with two cherries in my hand. I picked only one. I left the other one on the tree. I did not pick cherries because I picked a cherry. Take this dare: My bird can fly faster than any supersonic plane. Here's how: If you put my bird inside any plane and make it fly in the same direction as the plane, it will go faster than the plane. 96 pages. \$5.25. ISBN 0 388 8144 4. *Learn to Think Using Riddles, Brain Teasers, and Wordplay: Develop a Quick Wit, Think More Creatively and Cleverly, and Train your Problem-Solving instincts* Patrick King, 2020-07-07 Learn how to ask the right questions, solve problems, and think more clearly. In traditional education, you're taught to recite and regurgitate. But there is rarely application and information just becomes information for information's sake. Does this actually make us smarter and more clever, or do we just get better at taking tests? Test yourself with over 30 maddening riddles and brain teasers designed to make you think outside the box. Learn to Think Using Riddles, Brain Teasers, and Wordplay is about how to think backwards, forwards, and sideways. Starting with a conclusion and finding the possible causes forces you to analyze, investigate, draw connections, and hypothesize. You need to explore all angles and let no stone remain unturned. This is exactly what real life requires. This book will confuse, frustrate, and ultimately improve your thinking prowess like nothing else on account of being thrown into the mental deep end. Challenge yourself and you will grow. Think like Sherlock Holmes and quickly cut to the core of an issue. Patrick King is an internationally bestselling author and social skills coach. His writing draws on a variety of sources: from scientific research, academic experience, coaching, and real life experience. Become more naturally curious, inquisitive, and insightful. What 5-letter word becomes shorter when you add two letters to it? A woman gives birth one day to two sons; they are both born in the same hour, in the same day, in the same year. However, they are not twins. How? A man hears his name spoken and is immediately taken away by two other men. Some time later, the man dies under the care of others. What happened to this man? A cowboy rides into town on Friday, stays for just three nights, and then leaves on Friday. How is this possible? Apply your new mental models in all facets of life. Everyone loves riddles, and they enable us to explore more abstract situations and reason through them. Master riddles, and you can master simply dealing with difficult, uncertain, impossible, or confusing questions and situations.
