Race And Ethnicity Comparative And Theoretical Approaches Blackwell Readers

Warren I. Cohen

Race And Ethnicity Comparative And Theoretical Approaches Blackwell Readers:

Race and Ethnicity Warren I. Cohen, 2003-03-07 This course reader collects the essential texts necessary for a comparative and theoretically informed approach to the study of race and ethnicity The introduction gives an account of race and ethnicity in contemporary society *Racism and Ethnicity* Ian Law, 2013-09-05 Racism and Ethnicity Global Debates Dilemmas Directions examines in detail the theories histories and principal debates of race racism and ethnicity within a global context The text offers critical evaluation of the work of major figures from Du Bois to Goldberg and presents new research on pre modern racisms contemporary scientific racisms racist violence racism reduction ethnicity in the UK and European patterns of exclusion and discrimination Richly illustrated throughout with examples and case studies drawn from across the world and time the book also offers a range of in text features to aid study including chapter summaries key concept boxes chapter activities and further reading Racism and Ethnicity Global Debates Dilemmas Directions will be core reading for students at all levels across the social sciences and the humanities ranging from history and cultural studies through sociology to political and policy analysis It will also be of significant interest to researchers and policy makers in a range of fields Ethnicity and Inclusion David G. Horrell, 2020-10-29 Some of today s problematic ideologies of racial and religious difference can be traced back to constructions of the relationship between Judaism and early Christianity New Testament studies which developed contemporaneously with Europe s colonial expansion and racial ideologies is David Horrell argues therefore an important site at which to probe critically these ideological constructions and their contemporary implications In Ethnicity and Inclusion Horrell explores the ways in which ethnic and religious characteristics feature in key Jewish and early Christian texts challenging the widely accepted dichotomy between a Judaism that is ethnically defined and a Christianity that is open and inclusive Then through an engagement with whiteness studies he offers a critique of the implicit whiteness and Christianness that continue to dominate New Testament studies today arguing that a diversity of embodied perspectives is epistemologically necessary The Early Christian World Philip Esler, 2017-07-20 Since its publication in 2000 The Early Christian World has come to be regarded by scholars students and the general reader as one of the most informative and accessible works in English on the origins development character and major figures of early Christianity In this new edition the strengths of the first edition are retained These include the book s attractive architecture that initially takes a reader through the context and historical development of early Christianity the essays in critical areas such as community formation everyday experience the intellectual and artistic heritage and external and internal challenges and the profiles on the most influential early Christian figures The book also preserves its strong stress on the social reality of early Christianity and continues its distinctive use of hundreds of illustrations and maps to bring that world to life Yet the years that have passed since the first edition was published have seen great advances made in our understanding of early Christianity in its world This new edition fully reflects these developments and provides the reader with authoritative lively

and up to date access to the early Christian world A quarter of the text is entirely new and the remaining essays have all been carefully revised and updated by their authors Some of the new material relates to Christian culture including book culture canonical and non canonical scriptures saints and hagiography and translation across cultures But there are also new essays on Jewish and Christian interaction in the early centuries ritual the New Testament in Roman Britain Manichaeism Pachomius the Great and Gregory of Nyssa This new edition will serve its readers for many years to come **Reading 1-2**

Peter and Jude Eric F. Mason, Troy W. Martin, 2014-03-31 An essential textbook on 1 2 Peter and Jude for readers of all levels Scholars engage the best contemporary work on 1 2 Peter and Jude in this student oriented book The first four chapters in this collection on authorship and pseudonymity literary relationships among the three books epistolary rhetoric and apocalyptic elements consider important foundational issues related to all three epistles These essays lay the groundwork for more focused chapters that examine theology and theory in 1 Peter as well a stylistic theological and thematic overlap in Jude and 2 Peter Features A range of theological literary and theoretical approaches Definitions for specialized terminology Historical and cultural background information Explanations of methodologies *Becoming Christian* David G. Horrell, 2013-07-04 The first letter of Peter remains a relatively neglected corner of the New Testament the number of monographs devoted to it is tiny compared with those on the Gospels and Pauline letters Yet it is a text so this book argues that offers much insight into crucial processes in the development of Christian identity In particular 1 Peter illustrates with particular clarity the complex ways in which Christian identity was forged from Jewish traditions and negotiated in the generally hostile Roman empire As such studies of this particular letter illuminate central themes in the making of Christianity in the earliest centuries *Becoming Christian* is a collection of essays that treat various facets of the first letter of Peter in its social and historical setting in some cases using new social scientific and postcolonial methods to shed light on the ways in which the letter contributes to the making of Christian identity At the heart of the book are chapters 5 7 which examine the contribution of 1 Peter to the construction of Christian identity the persecution and suffering of Christians in Asia Minor the significance of the name Christian and the response of the letter to the hostility encountered by Christians in society There are no recent books which bring together such a wealth of information and analysis of this crucial early Christian text *Becoming Christian* has developed out of Horrell s ongoing research for the International Critical Commentary on 1 Peter Together these essays will offer a series of significant and original engagements with this letter and a resource for studies of 1 Peter for some time to come *Walking in Their Sandals* Markus Cromhout, 2010-06-01 This volume invites readers to walk in Israelite sandals that is to take a journey of the imagination and to immerse themselves in the identity values and institutions of first century CE Israelites with the help of contemporary social scientific studies and theories What emerges is that the Israelites did not practice a religion Rather they were an ethnos or as this book describes it an ethnic identity who lived out a particular way of life and culture the customs of the fathers It is to belong to a people

who obtained their collective identity honor and sense of worth from their socialization and membership in Israel and from the social convention of loyalty to their rich cultural tradition It was to belong to a world or having a perspective on the world with its own quality of knowledge which among other things preferred collectivism over individualism and orthopraxy over orthodoxy

The Concise Encyclopedia of Sociology George Ritzer,J. Michael Ryan,2011-01-25 This concise encyclopedia is the most complete international survey of sociology ever created in one volume Contains over 800 entries from the whole breadth of the discipline Distilled from the highly regarded Blackwell Encyclopedia of Sociology with entries completely revised and updated to provide succinct and up to date coverage of the fundamental topics Global in scope both in terms of topics and contributors Each entry includes references and suggestions for further reading Cross referencing allows easy movement around the volume

The Social Movements Reader Jeff Goodwin,James M. Jasper,2009-04-20 Combining the strengths of both a reader and a textbook this second edition of The Social Movements Reader not only expands on the collection of classic texts but also provides the most important and readable articles and book selections on social movements from recent decades Requiring no prior knowledge about social movements this new edition includes definitions of key concepts biographies of exemplary leaders new developments in the field and timelines of several ongoing social movements Analysing the specific resources networks structures and environments of social movements as well as the motivating psychology ideas political debates emotions and personal and collective identities behind them this is an engaging and illuminating collection for anyone curious about social movements

Assessing Race, Ethnicity and Gender in Health Sana Loue,2006-12-22 This book deals specifically with the historical basis for use of terms in race gender ethnicity sex and sexual orientation It brings much needed clarity to the debate by identifying the ethical issues as well as the technical challenges inherent in measuring these elusive concepts The author expands on her work begun in Gender Ethnicity and Health Research by paralleling the evolution of racial and sexual categories with the development of health research In addition the book provides a salient guide to assessment tools currently used in measuring racial and sexual constructs identity and experience
