Wolhuter,Corene de Wet,2014-05-31 This book scrutinises religion in education in ten countries It reveals much about the tension between religion and education in secular countries and the blending between religion and education in religious countries such as Iran and Malaysia as well as secular countries such as the Netherlands It also shows the important role the church currently plays in education in developing countries such as Tanzania Religion And Modernization In The Soviet Union Dennis J. Dunn,2019-06-18 To the surprise of many students of the Soviet Union religion has shown itself to be a force still powerful in Soviet society In contrast the impact of religion in developed Western societies has declined Dr Dunn points out that the study of this antinomy can shed light on the entire concept of modernization in the U S S R The study of the **The International Politics of Eurasia: v. 3: The Politics of Religion in Russia and the New States of Eurasia** S. Frederick Starr,Karen Dawisha,2016-06-16 First Published in 2015 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume3 The

Politics of Religion in Russia and the New States of Eurasia      **Proselytism and Orthodoxy in Russia** John Witte, Michael Bourdeaux, 2009-05-01 Few of the struggles Russia has undergone since the fall of Communism have been fiercer than that being fought between the long repressed Russian Orthodox Church and a host of groups seeking to evangelize the Russian people This volume assesses the legitimacy of the Orthodox attempt to reclaim the spiritual and moral heart of the Russian people and to retain their adherence in a new pluralistic world where many Christians and followers of other traditions seek the right to establish themselves Proselytism and Orthodoxy in Russia also brings together the latest scholarship on the new Russian laws regarding religion as well as suggesting guidelines for foreign missionaries in Russia      **Soviet and Muslim** Eren Tasar, 2017-11-01 Central Asia was the sole Muslim region of the former Russian Empire that lacked a centralized Islamic organization or muftiate When Soviet leader Joseph Stalin created such a body for the region as part of his religious reforms during World War II he acknowledged that the Muslim faith could enjoy some legal protection under Communist rule From a skeletal and disorganized body run by one family of Islamic scholars out of a modest house in Tashkent's old city this muftiate acquired great political importance in the eyes of Soviet policymakers and equally significant symbolic significance for many Muslims Relying on recently declassified Central Asian archival sources most of them never seen before by historians Eren Tasar argues that Islam did not merely survive the decades from World War II until the Soviet collapse in 1991 but actively shaped the political and social context of Soviet Central Asia Muslim figures institutions and practices evolved in response to the social and political reality of Communist rule Through an analysis that spans all aspects of Islam under Soviet rule from debates about religion inside the Communist Party to the muftiate's efforts to acquire control over mosques across Central Asia changes in Islamic practices and dogma and overseas propaganda targeting the Islamic World Soviet and Muslim offers a radical new reading of Islam's resilience and evolution under atheism      **Religion and Identity in Modern Russia** Juliet Johnson, Marietta Stepaniants, Benjamin Forest, 2017-03-02 Focusing on the roles of Russian Orthodoxy and Islam in constituting challenging and changing national and ethnic identities in Russia this study takes Tsarist and Soviet legacies into account paying special attention to the evolution of the relationship between religious teachings and political institutions through the late 19th and 20th centuries The volume explicitly discusses and compares the role of Russia's two major religions Orthodoxy and Islam in forging identity in the modern era and brings an innovative blend of sociological historical linguistic and geographic scholarship to the problem of post Soviet Russian identity This comprehensive volume is suitable for courses on post Soviet politics Russian studies religion and political culture      **The Christian Right & US Foreign Policy in the 21st Century** Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000-2009 During this period the movement successfully

widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security

The Dark Side of Church/State Separation Stephen Strehle, 2017-09-08 The Dark Side of Church State Separation analyzes the Enlightenment's attack upon the Judeo Christian tradition and its impact upon the development of secular regimes in France Germany and Russia Such regimes followed the anti Semitic anti Christian agenda of the French Enlightenment in blaming the Judeo Christian tradition for all the ills of European society and believing that human beings can develop their own set of values and purposes through rational means apart from any revelation from God or Scripture Stephen Strehle's analysis extends our understanding of church state relations and its history He confirms the spiritual roots of modern anti-Semitism within the ideology of the Enlightenment and recognizes the intimate relationship between anti-Semitism and anti Christianity Strehle questions the absolute doctrine of church state separation given its background in the bigotries of the philosophes He notes the nefarious motives of subsequent regimes which used the French doctrine to replace the religious community with the state and its secular ideology This detailed historical analysis of original sources and secondary literature is woven together with special appreciation for the philosophical and theological ideas that contributed to the emergence of political institutions Readers will gain an understanding of the most influential ideas shaping the modern world and present day culture

**The Oxford Handbook of Christian Monasticism** Bernice M. Kaczynski, 2020-09-29 The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern

Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues They indicate developing trends in their areas of specialisation The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies In today's world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely

**Broken Altars** Thomas Albert Howard, 2025-03-25 A sweeping history of the violence perpetrated by governments committed to extreme forms of secularism in the twentieth century A popular truism derived from the Enlightenment holds that violence is somehow inherent to religion to which political secularism offers a liberating solution But this assumption ignores a glaring modern reality that putatively progressive regimes committed to secularism have possessed just as much and often a vastly greater capacity for violence as those tied to a religious identity In Broken Altars Thomas Albert Howard presents a powerful account of the sheer numbers misery deaths and destruction visited on religious communities by secularist regimes in the twentieth century Presenting three principal forms of modern secularism that have arisen since the Enlightenment passive secularism combative secularism and eliminationist secularism Howard argues that the latter two have been especially violence prone Westerners do not fully grasp this however because they often mistake the first form passive secularism for secularism as a whole But a disconcertingly more complicated picture emerges with the adoption of a broader global vision Admitting different species of secularism greater historical perspective and case studies drawn from the former Soviet Union Turkey Mexico Spain Czechoslovakia Albania Mongolia and China among other countries Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past
