Shakespeare Without Boundaries Dieter Mehl, 2011. *Shakespeare without Boundaries: Essays in Honor of Dieter Mehl* offers a wide-ranging collection of essays written by an international team of distinguished scholars who attempt to define, to challenge, and to erode boundaries that currently inhibit understanding of Shakespeare and to exemplify how approaches that defy traditional bounds of study and criticism may enhance understanding and enjoyment of a dramatist who acknowledged no boundaries in art. The volume is published in tribute to Professor Dieter Mehl, whose critical and scholarly work on authors from Chaucer through Shakespeare to D. H. Lawrence has transcended temporal and national boundaries in its range and scope and who, as Ann Jennalie Cook writes, has contributed significantly to the erasure of political boundaries that have endangered the unity of German literary scholarship and more broadly through his work for the International Shakespeare Association to the globalization of Shakespeare studies. **Catalogue ...** Dartmouth College, 1922. *Literature in the Making* Nancy Glazener, 2015-10-15. In the eighteenth century, literature meant learned writings; by the twentieth century, literature had come to be identified with imaginative, aesthetically significant works, and academic literary studies had developed special protocols for interpreting and valuing literary texts. *Literature in the Making* examines what happened in between: how literature came to be more precisely specified and valued, how it was organized into genres, canons, and national traditions, and how it became the basis for departments of modern languages and literatures in research universities. Modern literature, the version of literature familiar today, was an international invention, but it was forged when literary cultures, traditions, and publishing industries were mainly organized nationally. *Literature in the Making* examines modern literature's coalescence and institutionalization in the United States, considered as an instructive instance of a phenomenon that was going global. Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer, Cervantes, and Shakespeare, however, the development of literature and literary culture in the U.S. was fundamentally transnational. *Literature in the Making* argues that Shakespeare studies, one of the richest tracts of nineteenth-century U.S. literary culture, was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk. A foundational paradox that continues to shape literary studies and literary culture: bringing together the histories of literature's competing conceptualizations, its print infrastructure, its changing status in higher education, and its life in public culture during the long nineteenth century. *Literature in the Making* offers a robust account of how and why literature mattered then and matters now. By highlighting the lively collaboration between academics and non-academics that prevailed before the ascendancy of the research university, starkly divided

experts from amateurs Literature in the Making also opens new possibilities for envisioning how academics might partner with the reading public

The Patriarchy of Shakespeare's Comedies Marilyn L. Williamson, 1986 *Reader's Guide to Periodical Literature Supplement*, 1929

The Re-Imagined Text Jean I. Marsden, 2014-07-15 Shakespeare's plays were not always the inviolable texts they are almost universally considered to be today The Restoration and eighteenth century committed what many critics view as one of the most subversive acts in literary history the rewriting and restructuring of Shakespeare's plays Many of us are familiar with Nahum Tate's audacious adaptation of King Lear with its resoundingly happy ending but Tate was only one of a score of playwrights who adapted Shakespeare's plays Between 1660 and 1777 more than fifty adaptations appeared in print and on the stage works in which playwrights augmented substantially cut or completely rewrote the original plays The plays were staged with new characters new scenes new endings and underlying all this novelty new words Why did this happen And why in the later eighteenth century did it stop These questions have serious implications regarding both the aesthetics of the literary text and its treatment for the adaptations manifest the period's perceptions of Shakespeare As such they demonstrate an important evolution in the definition of poetic language and in the idea of what constitutes a literary work In *The Re-Imagined Text* Jean I Marsden examines both the adaptations and the network of literary theory that surrounds them thereby exploring the problems of textual sanctity and of the author's relationship to the text As she demonstrates Shakespeare's works and English literature in general came to be defined by their words rather than by the plots and morality on which the older aesthetic theory focused a clear step toward our modern concern for the word and its varying levels of signification

The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century H. B. Nisbet, Claude Rawson, 2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study
