Maines Hunting Past Me:

Maine's Hunting Past Donald A. Wilson, 2001 Maine has long been a well known and frequently visited hunting region Long ago moose and caribou were abundant and as time passed trappers have been able to earn a decent living pursuing choice and prized fur bearing animals Small game and waterfowl populations remained fairly stable over the years and have continued to increase in popularity However as large areas of habitat were cleared for timber larger animals began to disappear and opulations dwindled Trapping has since become a less favorable mode of producing income because of the low prices offered for native and raw fur Maine s Hunting Past captures the pursuit of wild animals through a century of documentation Since about 1850 animals have been taken for sport for food and for their hides Hunting has long been not only a sport but also an industry resulting in the increase and growth of sporting camps and an expanding number of guides Maine s Hunting Past highlights favorite regions featuring famous sporting camps and well known guides Big game small game upland birds waterfowl furbearers and numerous photographs of trophy animals and large bag limits are all included

events at Gettysburg Five Forks and Appomattox and on the planning of ceremonies to celebrate the fiftieth anniversary of Gettysburg As Jeremiah Goulka points out in his introduction the letters also shed light on Chamberlain s views on politics race relations and education and they expose some of the personal difficulties he faced late in life On a broader scale Chamberlain s correspondence contributes to a better understanding of the influence of Civil War veterans on American life and the impact of the war on veterans themselves It also says much about state and national politics including the politics of pensions family roles and relationships and ideas of masculinity in Victorian America
