Maintaining Long-Distance and Cross-Residential Relationships Laura Stafford, 2004-12-13 This thought provoking volume offers an innovative and intriguing approach to the study of long distance relationships Author Laura Stafford examines romantic long distance relationships and then expands the conception of long distance relationships to include other relational types She summarizes literature across the social sciences on various types of long distance relationships and extracts themes and patterns across the relational types In so doing she reconsiders approaches to and offers an expanded vision of relational maintenance By expanding her scope beyond romantic relationships Stafford includes those that span residences and relational types such as noncustodial parent child and geographically and residentially separated adult children and parents She contends that face to face interaction is not necessary to maintain healthy relationships and questions the assumption that maintaining rather than terminating a particular relationship is always best for the involved parties With its interdisciplinary approach to challenging commonly held assumptions about communication and close relationships Maintaining Long Distance and Cross Residential Relationships will be engaging reading for scholars in communication psychology sociology mass communication and family studies It is also appropriate for special topics graduate courses on long distance relationships and human communication and will serve as a unique supplemental text for upper level undergraduate and graduate students in interpersonal relational and family communication and family studies

**Living Apart Together** Cynthia Grant Bowman, 2020-12-29 Argues for legal reforms to protect couples who live apart but perform many of the functions of a family Living Apart Together is an in depth look at a new way of being a couple and doing family living apart together LAT in which committed couples maintain separate residences and finances In Bowman's own 2016 national survey 9% of respondents reported maintaining committed relationships while living apart typically spending the weekend together socializing together taking vacations together and looking after one another in illness but maintaining financial independence The term LAT stems from Europe where this manner of coupledness has been extensively studied however it has gone virtually unnoticed in the United States Living Apart Together aims to remedy this oversight by presenting original research derived from both randomized surveys and qualitative interviews Beginning with the large body of social science literature from outside the US Cynthia Bowman examines the prevalence of this lifestyle the demographics of people who live apart their reasons for doing so and how these individuals manage finances care during illness and many other aspects of family life She focuses in particular detail on three key demographics women gay men and the elderly and how individuals from these groups engage in LAT behavior She finds that while these living arrangements are more common than previously believed there are virtually no legal protections for the people involved Bowman concludes by proposing a number of legal reforms to support the caregiving functions LAT partners perform for each other Living Apart Together makes an important case for formal recognition of this growing but largely overlooked family structure

**Thai Marriage**

**Migrants in Germany and their Employment Dilemma after the Residence Act of 2005.** Woramon Sinsuwan, This book provides one of the most comprehensive researches on Thai marriage migrants in Germany to date. It investigates the employment dilemma of Thai marriage migrants after implementation of the new Residence Act of 2005 in Germany. Also, it sheds light on the underlying problems that hinder Thai marriage migrants' potential as full-time labourers, examines the Thai diaspora, and explores the present-day transnationalism of Thai marriage migrants in Germany. Most importantly, it applies Pierre Bourdieu's theoretical concept of capital, habitus, and social space to better understand Thai marriage migrants' career choices in the German milieu.

Living Apart Together Transnationally (LATT) Couples Rashmi Singla, 2024-05-18 This book provides deep insight into intimacy and distance in the complex globalised world through the newly coined concept of couples living apart together transnationally (LATT). Based on a review of the past four decades' seminal studies and narratives from a qualitative empirical study including both heterosexual and same-sex couples, it shows intimacy can be maintained without geographical proximity. The book has a rich, layered and nuanced exploration of LATT couples' experiences of relationship maintenance across distance and time through diverse ways such as digital emotions, online sexual activity, and meaning-making through spirituality, which challenge existing Eurocentric conceptualisations of intimacy and relationships. It also reveals an array of good practices for relationship maintenance across countries which can inspire other couples and practitioners. Thus, the book is an important resource not only for academics in the disciplines of psychology, anthropology, cultural studies, family science, sociology, migration, and communication, but particularly useful for practitioners dealing with couple relationships such as counselors, social workers, and mental health advisors. It is also relevant for international organizations and multinational corporations working with couples living apart together transnationally. The implications of this book for how we live now are clear in a more closely connected and mobile world; the possibility of living our most intimate relationships across distance will affect increasing numbers of us. The book's informative theoretical and practical messages have valuable lessons for many of us now and in the future.

Dr Lucy Williams, University of Kent, the UK Living Apart Together Transnationally (LATT) Couples: Promoting mental health and intimacy gives us insights into the everyday lives of couples living apart together (LAT) in a contemporary world characterized by globalisation and pandemics that have affected border controls and migration policies in different countries. Rashmi Singla invites us to challenge the way we understand intimate relationships that are connected to physical proximity and provides us with innovative ways to maintain emotional and physical intimacy despite geographical separation.

Sayaka Osanami, Trngren, Associate Professor of International Migration and Ethnic Relations, Malm University, Sweden Dr Rashmi Singla's book Living Apart Together Transnationally addresses a very important problem many modern couples encounter: living apart in different countries.
