Mission To Mars:

Mission to Mars IntroBooks,2018-02-21 Mars has always signaled to the mankind when it would travel high in the night sky The ancient people have assumed that this rust red planet was the god of war and therefore they christened it with the name Mars The early explorers were armed with newly forms of invented telescopes discovered that Mars exhibited seasonal color changes and were subjected to dust storms that used to encircle the globe and might even have had several channels that could have crisscrossed the surface The recent explorers make use of the advanced technology and the robotic surrogates to extend their reach out to the planet Mars With the use of the advanced technology they have discovered that Mars is much more interesting and the complex planet in the Solar System As per the claims of the present explorers that pieces of Mars have even arrived on the Earth as meteorites and these particles are pointing out to the possible existence of life on Mars This has resulted in the growth of the active interests of the explorers to gain impetus about the living conditions on Mars

The Human Factor in a Mission to Mars Konrad Szocik,2019-04-09 A manned mission to Mars is faced with challenges and topics that may not be obvious but of great importance and challenging for such a mission This is the first book that collects contributions from scholars in various fields from astronomy and medicine to theology and philosophy addressing such topics The discussion goes beyond medical and technological challenges of such a deep space mission The focus is on human nature human emotions and biases in such a new environment The primary audience for this book are all researchers interested in the human factor in a space mission including philosophers social scientists astronomers and others This volume will also be of high interest for a much wider audience like the non academic world or for students
