Adam Garfinkle, Daniel Pipes

Mobutu Or Chaos:

Mobutu Or Chaos? Michael G. Schatzberg, 1991-05-31 Mobutu or Chaos is the latest product of the Foreign Policy Research Institute's study on friendly tyrants. Like its predecessors it tackles the thorny question of how to deal with the pro U S authoritarian regimes that have bedeviled U S foreign policy for the better part of forty years. The book chronicles the U S relations with Mobutu from their beginnings in the sixties when support for the ruler was justifiable by higher goals through to the present when the degeneration of his regime into incompetence and severe brutality raises new questions both practical and moral as to the justification of continued relations. This volume is important to all those interested in Zaire Africa and the general workings of U S foreign policy. Co published with the Foreign Policy Research Institute. Mobutu Or Chaos Michael G. Schatzberg, 1990. Mobutu's Totalitarian Political System Jean-Louis Peta Ikambana, 2006-11-16. This study shows that the failures and misdeeds of Mobutu's system were clear evidence that it lacked an African centred vision and did not put the interests of the African people of Congo formerly Zaire at the centre of this political project.

Sultanistic Regimes Houchang E. Chehabi, Juan J. Linz, 1998-06-05. Authoritarian governments are often based on raw power sustained by fear of punishment and hope of reward. This text identifies common characteristics of such regimes comparing them to totalitarian and authoritarian forms of government and tracing common patterns for their genesis and demise. **The African Stakes of the Congo War** J. Clark, 2002-09-13. The African Stakes in the Congo War analyzes the Congo conflict by looking at the roles played by various states and factors in the conflict. Part I introduces the conflict by showing the historical and regional context of the war. Part II examines those states and groups that worked to support the Kabila regime. Part III examines the rebel groups working to overthrow Kabila and those intervening on their behalf. Part IV looks at the role of supposedly neutral states such as South Africa and looks at the social and economic effects of the war by examining trans state factors such as rebel groups, arms trading and economic consequences. The collection includes both African and US/UK scholars and covers the recent transfer of power from Laurent to Joseph Kabila. **The Rise and Decline of the Zairian State** Crawford Young, Thomas Edwin Turner, 1985. Zaire apparently strong and stable under President Mobutu in the early 1970s was bankrupt and discredited by the end of that decade beset by hyperinflation and mass corruption. The populace forced into abject poverty. Why and how in a new African state strategically located in Central Africa and rich in mineral resources did this happen? How did the Zairian state become a parasitic predator upon its own people? **Friendly Tyrants** Adam Garfinkle, Daniel Pipes, 1991-10-31. What do the South Vietnamese government, the Shah and Ferdinand Marcos have in common? All were allied to the United States, all defied democratic and liberal norms and all three fell in a blaze creating problems for the United States. These three cases and another eighteen more are the subject of *Friendly Tyrants*, the first study ever to survey the contentious persistent problem of U S government relations with pro American authoritarian rulers. *The Dynamics of Violence in Central Africa* René Lemarchand, René

Lemarchand,2012-04-18 Endowed with natural resources majestic bodies of fresh water and a relatively mild climate the Great Lakes region of Central Africa has also been the site of some of the world s bloodiest atrocities In Rwanda Burundi and the Congo Kinshasa decades of colonial subjugation most infamously under Belgium s Leopold II were followed by decades of civil warfare that spilled into neighboring countries When these conflicts lead to horrors such as the 1994 Rwandan genocide ethnic difference and postcolonial legacies are commonly blamed but with so much at stake such simple explanations cannot take the place of detailed dispassionate analysis The Dynamics of Violence in Central Africa provides a thorough exploration of the contemporary crises in the region By focusing on the historical and social forces behind the cycles of bloodshed in Rwanda Burundi and the Congo Kinshasa Ren Lemarchand challenges much of the conventional wisdom about the roots of civil strife in former Belgian Africa He offers telling insights into the appalling cycle of genocidal violence ethnic strife and civil war that has made the Great Lakes region of Central Africa the most violent on the continent and he sheds new light on the dynamics of conflict in the region Building on a full career of scholarship and fieldwork Lemarchand s analysis breaks new ground in our understanding of the complex historical forces that continue to shape the destinies of one of Africa s most important regions
