Dictionary of American Library Biography Donald G. Davis, 2003-01-30 This second supplement to DALB the Dictionary of American Library Biography 1978 adds 77 notable deceased members of the library and archival communities to the 302 entries in the main volume and the 51 entries in the first supplement 1990 The second supplement includes primarily those figures who died between 1987 and the end of the

year 2000 though some 13 entries provide sketches for notable persons whose death dates are somewhat earlier and who were not included in earlier works Among the entries are a number of African Americans and nearly one half of the entries are women Some 80 contributors from the United States and Canada provided sketches many based on original source material This supplement follows the practice and format of the earlier volumes though it allows presidents of the American Library Association to compete for inclusion with other nominations

Scientific Information Notes, 1965 University Library Buildings in India Rajwant Singh Chilana, 1984 **Library Space Planning** Ruth A. Fraley, Carol Lee Anderson, 1990 With the space demands of new equipment and sparse expansion funds librarians are under more pressure than ever to make the best use of available space *Library Space Planning* covers all aspects of space planning library moves and security needs This guide widely offers techniques for best exploiting space through careful appraisal and reorganization Included are sample floor diagrams moving checklists and sample bid specifications IFLA Library Building Guidelines:

Developments & Reflections Karen Latimer, Hellen Niegaard, 2008-11-03 The information society and the information age are changing library services as well as library premises This raises questions about what needs to be considered when planning and designing new library buildings in order to achieve attractive efficient and future oriented new library spaces This new publication provides information and guidelines for the building planning process whether you are planning a new public or academic library building It reflects on fundamental issues on new development trends and on the planning process The library building process is seen from both the library manager's perspective as well as that of the architect and designer Issues covered include what to consider when investigating the need for space library design from a marketing viewpoint green management and sustainability relating to library buildings and a layman's guide to reading plans This publication and the IFLA guidelines provided are not seen as a traditional set of recommendations to be rigidly adhered to since this would be unrealistic in a fast changing and global context Rather library managers and architects should read them in order to inform their thinking on key issues and establish a planning programme They must then relate them to their own countries and circumstances by making the relevant local adjustments
