Hollywood's War with Poland, 1939-1945 M.B.B. Biskupski, 2010-01-08 This passionate carefully researched richly detailed well written study reveals the political motives behind WWII Hollywood's portrayal of Poles Choice During World War II Hollywood studios supported the war effort by making patriotic movies designed to raise the nation's morale Often the characterizations were as black and white as the movies themselves Americans and their allies were heroes while everyone else was a villain The peoples of Norway France Czechoslovakia and England were all good because they had been invaded or victimized by Nazi Germany Yet Poland the first country to be invaded by the Third Reich was repeatedly represented in a negative light In this prize winning study Polish historian M.B.B. Biskupski explores why Biskupski presents a close critical study of prewar and wartime films such as *To Be or Not to Be* *In Our Time* and *None Shall Escape* Through memoirs letters diaries and memoranda written by screenwriters directors studio heads and actors Biskupski examines how the political climate and especially pro Soviet sentiment influenced Hollywood films of the time Winner of the Oscar Halecki Prize A Choice Outstanding Academic Title

The Vikings in Poland Leszek Gardela, 2024-09-26 This pioneering work offers a meticulous exploration of Scandinavian presence in Viking Age Poland Unveiling the complexities and controversies of past research and delving into the nuances of reciprocal interactions between Western Slavic and Scandinavian populations as revealed through archaeology and medieval texts the book casts genuinely new light on a previously overlooked part of the Viking world In setting the stage for these investigations the

monograph traces the evolution of Viking and Old Norse studies in Poland. It covers the romanticisation of Norse culture and literature, the dark days of the Second World War when archaeology was strongly driven by violent ideologies, and the profound changes that occurred in academia after the fall of communism and Poland's accession to the European Union. At the core of this book are thorough investigations into cross-cultural interactions along the shores of the southern Baltic as well as in the interior of Poland. Using first-hand analyses of archaeological evidence from bustling ports of trade, settlement sites, silver hoards, and burial grounds, it is argued that the relationship between the local Western Slavic population and the Scandinavian migrants was highly complex but overall very symmetrical. Crucial notions such as the construction of identity in diasporic communities, ritual behaviour, and the symbolic content of Viking Age material culture are also discussed at length, offering new insights into Scandinavian and Slavic minds. Enriched with high-quality illustrations, photographs, as well as artistic reconstructions, this book fills many blank spaces in the field of Viking studies and is intended both for professional audiences and general readers interested in the intricacies of our shared past.

Free Poland, 1914 Sociology in Poland
Marta Bucholc, 2016-07-12

This ground-breaking book provides a compelling account of the social sciences in post-war Central and Eastern Europe. The first English language monograph to analyse the history of sociology in Poland up to the present day, it maps transformations in the discipline against political and social change. Related in an accessible and engaging manner, it offers a comprehensive examination of sociology as a part of Polish society and culture after 1945. It can also be used as an introduction to the subject and a guide to further reading.

Part of the influential *Sociology Transformed* series, *Sociology in Poland* will interest social and political scientists, historians, and policymakers.

The Politics of Memory in Poland and Ukraine Tomasz Stryjek, Joanna Konieczna-Salamatin, 2021-09-30

Bringing together the work of sociologists, historians, and political scientists, this book explores the increasing importance of the politics of memory in central and eastern European states since the end of communism, with a particular focus on relations between Ukraine and Poland. Through studies of the representation of the past and the creation of memory in education, mass media, and on a local level, it examines the responses of Polish and Ukrainian authorities and public institutions to questions surrounding historical issues between the two nations. At a time of growing re-nationalization in domestic politics in the region, brought about by challenges connected with migration and fear of Russian military activity, this volume asks whether international cooperation and the stability of democracy are under threat. An exploration of the changes in national historical culture, *The Politics of Memory in Poland and Ukraine* will appeal to scholars with interests in memory studies, national identity, and the implications of memory making for contemporary relations between states.
