Ritual Process Structure And Anti Structure:

The Ritual Process Victor Turner, Roger Abrahams, Alfred Harris, 2017-07-05 In *The Ritual Process Structure and Anti Structure* Victor Turner examines rituals of the Ndembu in Zambia and develops his now famous concept of *Communitas*. He characterizes it as an absolute inter human relation beyond any form of structure. *The Ritual Process* has acquired the status of a small classic since these lectures were first published in 1969. Turner demonstrates how the analysis of ritual behavior and symbolism may be used as a key to understanding social structure and processes. He extends Van Gennep's notion of the liminal phase of rites of passage to a more general level and applies it to gain understanding of a wide range of social phenomena. Once thought to be the vestigial organs of social conservatism, rituals are now seen as arenas in which social change may emerge and be absorbed into social practice. As Roger Abrahams writes in his foreword to the revised edition, Turner argued from specific field data. His special eloquence resided in his ability to lay open a sub-Saharan African system of belief and practice in terms that took the reader beyond the exotic features of the group among whom he carried out his fieldwork, translating his experience into the terms of contemporary Western perceptions. Reflecting Turner's range of intellectual interests, the book emerged as exceptional and eccentric in many ways, yet it achieved its place within the intellectual world because it so successfully synthesized continental theory with the practices of ethnographic reports.

The Ritual Process Victor Witter Turner, 1969 **The Ritual Process** Victor Witter Turner, 1966 *The Ritual Process* Victor Turner, 1969 *The Ritual Process* Victor Turner, 1961 **The ritual process** Victor W. Turner, 1970 **The Ritual Process** Victor Witter Turner, 1974 **Betwixt and Between Liminality and Marginality** Zohar Hadromi-Allouche, Michael Hubbard MacKay, 2023-03-20 *Betwixt and Between Liminality and Marginality* Mind the Gap offers an interdisciplinary thinking on the marginal within society. Using the framework of Victor Turner's earlier notions of liminality, the book both challenges Turner's symbolic anthropology and celebrates its continued influence across disciplines and under new theoretical constraints. Liminality in its simplest forms provides language for meaningful approaches to articulate transition and change. It also represents complex social theories beyond Turner's classical symbolic approach. While demonstrating the enduring relevance of Turner's language for expressing transition, this volume keeps an eye toward the validity of critiques against him. It thus theorizes with Turner's work while updating even abandoning some of his primary ideas when applying it to contemporary social issues. A central focus of this volume is marginality. Turner recognized that marginals like liminars are betwixt and between; however, they lack assurance that their ambiguity will be resolved. This volume explores the dialogic relationship of space and agency to recognize marginal groups and people and inquire without a harmonious resolution what happens to the marginals. Have race, class, gender, and sexual orientation become the space for thinking about reintegration and *communitas*? Each chapter examines how marginal groups or liminal spaces and ideas destabilize shape and affect the dominant culture. Culture and Society Jeffrey C. Alexander, Steven Seidman, 1990-08-31

Liminal Dickens Valerie Kennedy, Katerina Kitsi-Mitakou, 2016-05-11 *Liminal Dickens* is a collection of essays which cast new light on some surprisingly neglected areas of Dickens s writings the rites of passage represented by such transitional moments and ceremonies as birth christenings weddings marriages and death Although a great deal of attention has been paid to the family in Dickens s works relatively little has been said about his representations of these moments and ceremonies Similarly although there have been discussions of Dickens s religious beliefs neither his views on death and dying nor his ideas about the afterlife have been analysed in any great detail Moreover this collection arising from a conference on Dickens held in Thessaloniki in 2012 explores how Dickens s preoccupation with these transitional phases reflects his own liminality and his varying positions regarding some main Victorian concerns such as religion social institutions progress and modes of writing The book is composed of four parts Part One concerns Dickens s tendency to see birth and death as part of a continuum rather than as entirely separate states Part Two looks at his unconventional responses to adolescence as a transitional period and to the marriage ceremony as an often unsuccessful rite de passage Part Three analyses his partial divergence from certain widely held Victorian views about progress evolution sanitation and the provisions made for the poor and Part Four focuses on two of his novels which are seen as transgressing conventional genre boundaries

Liminal Fiction at the Edge of the Millennium Jessica A. Folkart, 2014-10-08 *Liminal Fiction at the Edge of the Millennium* The Ends of Spanish Identity investigates the predominant perception of liminality identity situated at a threshold neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain Examining how identity and alterity are parleyed through the cultural concerns of historical memory gender roles sex religion nationalism and immigration this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge a liminal ground On the border between two identities the end materializes as an ephemeral limit that delineates and differentiates yet also adjoins and

approximates In exploring the ends of Spanish fiction both their structure and their intentionality Liminal Fiction maps the edge as a constitutive component of narrative and identity in texts by Najat El Hachmi Cristina Fernandez Cubas Javier Marías Rosa Montero and Manuel Rivas In their representation of identity on the edge these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain
