Rules Of Art Genesis And Structure Of The Literary Field:

The Rules of Art Pierre Bourdieu, 1996 Written with verve and intensity and a good bit of wordplay this is the long awaited study of Flaubert and the modern literary field that constitutes the definitive work on the sociology of art by one of the world's leading social theorists Drawing upon the history of literature and art from the mid nineteenth century to the present Bourdieu develops an original theory of art conceived as an autonomous value He argues powerfully against those who refuse to acknowledge the interconnection between art and the structures of social relations within which it is produced and received As Bourdieu shows art's new autonomy is one such structure which complicates but does not eliminate the interconnection The literary universe as we know it today took shape in the nineteenth century as a space set apart from the approved academies of the state No one could any longer dictate what ought to be written or decree the canons of good taste Recognition and consecration were produced in and through the struggle in which writers critics and publishers confronted one another

Berman, 2007-09 In what can only be called a genuine intellectual adventure Russell Berman raises fundamental questions long ignored by literary scholars Why does literature command our attention at all Why would society want to cultivate a sphere of activity devoted to the careful study of literary fiction Written as a tonic to what he calls the debilitating cultural relativism of contemporary literary studies Fiction Sets You Free advances the innovative argument that literature and capitalism rather than representing merely commercialization actually belie a long and positive association literary autonomy is a central part of modern Western culture thoroughly intertwined with political democracy and free market capitalism

Wilders, Antine Zijlstra, 2025-04-25 This book reports on one of the largest coordinated efforts to survey the theatrical audience experience the City Study of the Project on European Theatre Systems which conducted over 7000 surveys and dozens of interviews and focus groups with audience members from four mid-sized cities across Europe. This study aimed to capture the details of how audiences perceive and value theatre and resulted in a data set which while imperfect has no precedent in scale and comparability for theatre studies. Based on this very large data set the authors were able to create a portrait of varied segments of European theatrical audiences its experiences and how it values theatre that is more detailed and incisive than any previously available. The question is not just who comes to theatre but why and how those experiences are valuable to them. This book's key contribution however is methodological that offers a detailed and unsparing examination of the City Study's working methods their underlying theory their strengths and weaknesses and which survey and interview techniques were more successful in bringing out useful information. This makes this book essential reading for those interested in studying theatre's place in society but also for artists policy makers and arts professionals who want to make and share work with an understanding of their audience's engagement with it. **Visual Arts in Cameroon** Annette
