Notebook Binly Toma, 2020-08-17 Schoolhouse Rock Science Rock Notebook *Science on American Television* Marcel Chotkowski, 2024-05-31 As television emerged as a major cultural and economic force many imagined that the medium would enhance civic education for topics like science And indeed television soon offered a breathtaking banquet of scientific images and ideas both factual and fictional Mr Wizard performed experiments with milk bottles Viewers watched live coverage of solar eclipses and atomic bomb blasts Television cameras followed astronauts to the moon Carl Sagan through the Cosmos and Jane Goodall into the jungle Via electrons and embryos blood testing and blasting caps fictional Frankensteins and chatty Nobel laureates television opened windows onto the world of science But what promised to be a wonderful way of presenting science to huge audiences turned out to be a disappointment argues historian Marcel Chotkowski LaFollette in *Science on American Television* LaFollette narrates the history of science on television from the 1940s to the turn of the twenty first century to demonstrate how disagreements between scientists and television executives inhibited the medium s potential to engage in meaningful science education In addition to examining the content of shows she also explores audience and advertiser responses the role of news in engaging the public in science and the making of scientific celebrities Lively and provocative *Science on American Television* establishes a new approach to grappling with the popularization of science in the television age when the medium s ubiquity and influence shaped how science was presented and the scientific community had increasingly less control over what appeared on the air **Animators of Film and Television** Noell K. Twenge, W. Keith Campbell, 2009-04-21 The author of *Generation Me* explores the spread of narcissism in today s culture and its catastrophic effects at every level of society Narcissism an inflated view of the self is everywhere Public figures say it s what makes them stray from their wives Teenagers and young adults hone it on social media and celebrity newsmakers have elevated it to an art form And it s what s making people depressed lonely and buried under piles of debt Dr Jean Twenge joins forces with W Keith Campbell PhD a nationally recognized expert on narcissism to explore this new plague in *The Narcissism Epidemic* Even the world economy has been damaged by risky unrealistic overconfidence Drawing on their own extensive research as well as decades of other experts studies Twenge and Campbell show us how to identify narcissism minimize the

forces that sustain and transmit it and treat it or manage it where we find it Filled with arresting alarming and even amusing stories of vanity gone off the tracks The Narcissism Epidemic is at once a riveting window into the consequences of narcissism a prescription to combat the widespread problems it causes and a probing analysis of the culture at large
