Love Story Black:

Love Story Black William Demby, 1986 Gladiators in Suits Simone Adams, Kimberly R. Moffitt, Ronald L. Jackson, 2019-08-21 One of the most popular shows to come out of Shondaland Shonda Rhimes's production company is ABC's political drama *Scandal* 2012-18 a series whose tremendous success and marketing savvy led LA Times critic Mary McNamara to hail it as the show that Twitter built and Time magazine to name its protagonist as one of the most influential fictional characters of 2013 The series portrays a fictional Washington DC and features a diverse group of characters racially and otherwise who gather around the show's antiheroine Olivia Pope a powerful crisis manager who happens to have an extramarital affair with the president of the United States For seven seasons audiences learned a great deal about Olivia and those interwoven in her complex world of politics and drama including her team of gladiators in suits with whom she manages the crises of Washington's political elite This volume named for both Olivia's team and the show's fans analyzes the communication politics stereotypes and genre techniques featured in the television series while raising key questions about the intersections of race gender sexuality and viewing audiences The essays range from critical looks at various members of *Scandal*'s ensemble to in-depth analyses of the show's central themes to audience reception studies via interviews and social media analysis Additionally the volume contributes to research on femininity masculinity and representations of black womanhood on television Ultimately this collection offers original and timely perspectives on what was one of America's most scandalous prime time network television series **Ebony**, 2003-06 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H. Johnson it still maintains the highest global circulation of any African American focused magazine *Black Pulp* Brooks E. Hefner, 2021-12-21 A deep dive into mid-century African American newspapers exploring how Black pulp fiction reassembled genre formulas in the service of racial justice In recent years Jordan Peele's *Get Out* Marvel's *Black Panther* and HBO's *Watchmen* have been lauded for the innovative ways they repurpose genre conventions to criticize white supremacy celebrate Black resistance and imagine a more racially just world important progressive messages widely spread precisely because they are packaged in popular genres But it turns out such generic retooling for antiracist purposes is nothing new As Brooks E. Hefner's *Black Pulp* shows this tradition of antiracist genre revision begins even earlier than recent studies of Black superhero comics of the 1960s have revealed Hefner traces it back to a phenomenon that began in the 1920s to serialized and sometimes syndicated genre stories written by Black authors in Black newspapers with large circulations among middle and working class Black readers From the pages of the *Pittsburgh Courier* and the *Baltimore Afro American* Hefner recovers a rich archive of African American genre fiction from the 1920s through the mid 1950s spanning everything from romance hero adventure and crime stories to westerns and science fiction Reading these stories Hefner explores how their authors deployed critiqued and reassembled genre formulas and the pleasures they offer to readers in the service of racial justice to criticize Jim Crow segregation racial capitalism and the sexual exploitation of Black women to imagine

successful interracial romance and collective sociopolitical progress and to cheer Black agency even retributive violence in the face of white supremacy These popular stories differ significantly from contemporaneous now canonized African American protest novels that tend to represent Jim Crow America as a deterministic machine and its Black inhabitants as doomed victims Widely consumed but since forgotten these genre stories and Hefner's incisive analysis of them offer a more vibrant understanding of African American literary history

readings of more than twenty novels by writers including Ernest Gaines Toni Morrison Charles Johnson Gloria Naylor and John Edgar Wideman Keith Byerman examines the trend among African American novelists of the late twentieth century to write about black history rather than about their own present Employing cultural criticism and trauma theory Byerman frames these works as survivor narratives that rewrite the grand American narrative of individual achievement and the march of democracy The choice to write historical narratives he says must be understood historically These writers earned widespread recognition for their writing in the 1980s a period of African American commercial success as well as the economic decline of the black working class and an increase in black on black crime Byerman contends that a shared experience of suffering joins African American individuals in a group identity and writing about the past serves as an act of resistance against essentialist ideas of black experience shaping the cultural discourse of the present Byerman demonstrates that these novels disrupt the temptation in American society to engage history only to limit its significance or to crown successful individuals while forgetting the victims **Ebony**, 1995-02 EBONY is the flagship magazine of Johnson Publishing
