Learning Ritual Magic John Michael Greer, Earl King, Jr., Clare Vaughn, 2004-10-01 Learning Ritual Magic is a training manual for anyone serious about improving their magic based on the western mystery traditions including tarot ritual magic Qabalah and astrology What you get out of magic can be measured precisely by what you are willing to put into it and time is the essential ingredient in successful magical training the authors write And just as no one expects to run a marathon or play a Bach violin concerto without sufficient training so practitioners of the magical arts shouldn't expect to work complex powerful magical rituals without a solid grounding in the techniques of Hermetic high magic By spending at least a half hour a day practicing the lessons found in Learning Ritual Magic the solitary apprentice attains the proper groundwork and experience for working ritual magic Learning Ritual Magic provides lessons on meditation and a set of exercises designed to develop basic skills in imagination will memory and self knowledge all of which are absolute fundamentals to magical attainment While the authors discuss the essentials of magical theory they focus on daily basic perspectives rather than launching into details of advanced practice Designed for the solitary practitioner Learning Ritual Magic concludes with a ceremony of self initiation

Esoteric Medicine and Practical Magic Samael Aun Weor, 2020-07-22 In ancient times only the wisest were trusted with medical knowledge for it bears power over life and death The remedies and methods of those seers may have been abandoned by modern civilization but they have been

preserved and retain their power Throughout all of our most sacred traditions it is known that Nature is the source for all genuine medicine The teachings of Hippocrates Paracelsus Galen Tibetan tantras and others all agree that a properly prepared individual can use Nature to cure any illness Samael Aun Weor lived in close contact with the mysterious natives of the Sierra Nevada of South America who have been in self imposed isolation from the rest of the world for hundreds of years The priests and doctors of that region taught him and his wife Lilientales their system of training and many of their healing methods revealed here to the public for the first time Perhaps most astonishing is that the philosophy and spiritual concepts are fundamentally the same as the ancient knowledge of the Greeks Tibetans Hindus and others This collection of hundreds of techniques and practices will guide you to awaken consciousness perform healing for yourself and others and return to the core medical knowledge of the ages Do not undervalue these remedies because of the modest way in which they are presented or because of their simplicity The author has tested in various cases all of the formulae and works of practical magic contained in this book Remember that this is not a game for children but a work for mature individuals I Samael Aun Weor give testimony of my work The Magic Power of Mental Images Dean Amory,2013-05-15 Jos Ortégay Gasset was so impressed by the power of metaphors that he compared them to a tool for creation which God forgot inside of us when he created man When I asked myself where metaphors get this tremendous power from I realized that mankind has an even much more powerful tool at its disposition Mental Imagery Mental Imagery is the key to achieving our goals and the internal screen on which we project our dreams It allows us to simulate procedures familiarize with environments and situations before we get to know them in real life It helps us to relax but just as well will arouse us or prepare us for future actions With the help of Mental Imagery we can build confidence and readiness stimulate healing and recovery change our behaviour or literally borrow the mind of a genius How to learn and implement this power and benefit from its many advantages is what this book is all about *Secrets of Western Sex Magic* U. D. Frater,U. D. (Frater),2001 HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires During the sex act your attention becomes focused into a laser beam of concentration This power of concentrated thought is the foundation of all magical systems Sex Magic s secret is that it s a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals Male and female energies are often entirely different and it would be folly to deny this but experience shows that female magicians can be particularly successful in using and developing Sex Magic Consequently this book is aimed at both male and female readers unlike more traditional teachings written for men Of all secret lore Sex Magic has been reputed through the centuries to be the most dangerous Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions If we learn one thing from the shamanic cultures it is the strong emphasis upon the role of the body in magic Mind and Body are two facets of the One Thing in which Will Imagination and Gnostic Trance are the three

pillars of success Contrary to the principles of Eastern Tantra Western Sex Magic emphasizes the importance of actual orgasm both male and female Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the charging of Amulets Talismans Group Ritual and the assumption of god forms when working as a priestly couple and the divine Chymical Marriage of ultimate union This book is also an introduction to the entire field of practical magic using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques

The Practical Art of Divine Magic Patrick Dunn, 2015-08-08 The ancient world of Egypt Greece and Rome was home to a set of magical and spiritual technologies called theurgy that unite the practice of magic with the aims of religion Theurgy or godwork is the art of creating a stronger bond between the theurgist and his or her deities The results of this stronger bond were imminently practical stronger magic more meaningful existence and a better life With the fall of Rome these techniques faded into obscurity and many of them were lost forever This book revives restores and reinvents these practices for a contemporary pagan or magical practitioner A mixture of scholarly research and examination of source texts and daring experimentation and extrapolation leads to a complete and workable system that can inform a variety of practices all presented in a relaxed lighthearted and readable way Whether you practice witchcraft ceremonial magic or chaos magic you can benefit from the practice of theurgy You will learn techniques to create stronger bonds with divine forces call up and communicate with spiritual beings summon a magical assistant create statues imbued with divine spirit and master your own mind The ultimate goal is union with the divine but theurgy is a practical path and every step on that path is designed to improve your life

Technology as Magic Richard Stivers, Peter Stirk, 2001-08-01 What gives the mass media particularly advertising and television their extraordinary power over our lives so that even the most jaded and sophisticated among us are troubled and fascinated by their allure The secret according to Richard Stivers in this brilliant new book lies in the curious relationship between technology and magic Stivers argues the two are now related to one another in such a way that each has taken on important characteristics of the other His contention is that our expectations for technology have become magical to the point that they have generated a multitude of imitation technologies that function as magical practices These imitation technologies flourish in the fields of psychology management administration and the mass media and their paramount purpose in human adjustment and control Advertising and television programs in particular contain the key magical rituals of our civilization In a fascinating analysis of television programming Stivers shows how various genres news sports game shows soap operas sitcoms etc have their distinct mythological symbols Through dramatized information they symbolically connect consumer goods and services to desired outcomes the utopian goals of success happiness and health thus enveloping

technology both real and imitation in a magical cocoon
