Maharishi's Absolute Theory Of Defence sovereignty In Invincibility:

Maharishi's Absolute Theory Of Defence: Sovereignty In Invincibility Maharishi Mahesh Yogi, 1996 Maharishi S Programme To Create A Prevention Wing In Every Military Offers Victory Before War The Post-Colonial Security Dilemma Rebecca Strating, 2018-11-20 This book examines the development of Timor Leste's foreign policy since achieving political independence in 2002. It considers the influence of Timor Leste's historical experiences with foreign intervention on how the small new state has pursued security. The book argues that efforts to secure the Timorese state have been motivated by a desire to reduce foreign intervention and dependence upon other actors within the international community. Timor Leste's desire for real independence characterized by the absence of foreign interference permeates all spheres of its international political, cultural and economic relations and foreign policy discourse. Securing the state entails projecting a legitimate identity in the international community to protect and guarantee political recognition of sovereign status, an imperative that gives rise to Timor Leste's aspirational foreign policy. The book examines Timor Leste's key bilateral and multilateral diplomatic relations, its engagement with the global normative order and its place within the changing Asia Pacific region.

An Antidote to Violence Barry Spivack, Patricia Anne Saunders, 2020-06-26 It's widely accepted that Transcendental Meditation (TM) can create peace for the individual, but can it create peace in society as a whole? And if it can, what could possibly be the mechanism? In *An Antidote to Violence*, Barry Spivack and Patricia Anne Saunders examine the peer-reviewed research and suggest that TM can influence the collective consciousness of a society, which leads to a decrease in negative social trends such as a decline in war fatalities and to an increase in cooperation between nations. Weaving together psychology, sociology, philosophy, statistics, politics, physics and meditation, *An Antidote to Violence* provides evidence that we have the knowledge to reduce all kinds of violence in society. *Pointless* RW Boyer, 2020-10-29 This book examines how major interpretations of quantum theory are progressing toward a more unified understanding and experience of nature. It offers subtle insights to address core issues of wave-particle duality, the measurement problem, the mind-body problem, determinism, indeterminism, free will and the nature of consciousness. It draws from physics, consciousness studies and ancient Vedic science to outline a new holistic interpretation of quantum theory. Accessible and thought-provoking, it will be profoundly integrating for scholars and researchers in science and technology, in philosophy and also in South Asian studies.

The Big Fish Anna J. Bonshek, Corrina Bonshek, Lee C. Fergusson, 2007 While debate continues in the fields of the sciences and humanities as to the nature of consciousness and the location of consciousness in the brain or as a field phenomenon, in the Vedic tradition consciousness has been understood and continues to be articulated as an infinite field of intelligence at the basis of all forms of existence. This infinite field of intelligence is accessible to human awareness, being the very nature of the mind and the structuring dynamics of the physiology from the DNA to the cell, tissues, organs and to the whole body and its sophisticated functioning. This two-part volume, *The Big Fish: Consciousness as Structure, Body and Space*

considers in Part One the Vedic approach to consciousness specifically referencing Maharishi Vedic Science and discusses themes pertinent to the arts including perception and cognition memory as awareness history and culture artistic performance and social responsibility observatory instruments as spaces and structures to enhance consciousness and beyond metaphor architectural sites as multi layered enclosures of the brain detailed in the Shrimad Devi Bhagavatam and as cosmic habitat or Vastu aligned to the celestial bodies Presenting some more general consciousness based readings Part Two includes essays by various authors on Agnes Martin and her views on art perfection and the Classic unified field based education and freedom of expression versus censorship in art prints from the Renaissance to the contemporary era as allegories of consciousness the work of Australian artist Michael Kane Taylor as beyond a modern postmodern dichotomy the photographic series The Ocean of Beauty by Mark Paul Petrick referencing the Vedic text the Saundarya Lahari a Deleuzian analysis of the dual screen multi arts work Reverie I and an account of the making of Reverie II a single screen video projection inspired by the idea of dynamics of awareness This book therefore presents a broad range of interests and reading while offering a unique yet profoundly transformative perspective on consciousness *Craving the Creator* Philip F. transformation such as global meditation directed toward peaceful resolution of a conflict Subtle activism represents a bridge between the consciousness movement and the movements for peace environmental sustainability and social justice It is not a substitute for physical action but rather a potentially crucial component of a more integrated approach to social change Although ancient lore is rife with tales of shamans and adepts intervening on spiritual levels for the benefit of humanity this book is the first comprehensive treatment of this topic Nicol grounds his consideration in the available scientific research and in dialogue with a broad range of thinkers in the fields of consciousness studies transpersonal theory and New Paradigm thought
