Medical Assistance in Dying (MAID) in Canada Jaro Kotalik, David W. Shannon, 2023-07-25 This book written both for a Canadian and an international readership provides a multidisciplinary review of the framework and performance of the Canadian Medical Assistance in Dying MAID program In the first five years 2015 2021 of operation this program delivered voluntary euthanasia and assistance in suicide to over 30 000 Canadian residents presently representing a 30% annual growth Looking back on these first five years the 30 Canadian scholars and clinicians contributing to this volume raise important issues and attempt to answer key questions that have arisen in regards to its operation and its stated objectives This volume strikes the most appropriate balance between the autonomy of persons who seek medical assistance versus the interests and protection of vulnerable persons Finally the book makes suggestions on how the program can presently be improved It identifies gaps in knowledge about MAID s operational program and its impact on individuals families and society in order to stimulate the necessary research that is essential to the evolution of a healthy and well balanced program As a first comprehensive examination of medically assisted deaths in Canada this publication will be of great value to lay professional academic political audiences both domestically and internationally especially in jurisdictions that are examining their options of permitting assisted deaths

Unravelling MAiD in Canada Ramona Coelho, K. Sonu Gaind, Trudo Lemmens, 2025-04-22 Since legalizing euthanasia and assisted suicide as medical assistance in dying MAiD in 2016 Canada has witnessed an internationally unprecedented expansion of the practice making it the country with the highest number of MAiD deaths Initially introduced to relieve suffering in a broad end of life context the law expanded quickly to make MAiD available to disabled Canadians not approaching their natural deaths MAID will also become legal for sole reasons of mental illness sometime after 2027 and there are plans to expand it further to include minors and advance requests From a cross disciplinary perspective including contributions from authors with lived experience Indigenous perspectives and expertise in medicine mental health disability law and ethics Unravelling MAiD in Canada challenges readers with the ethical medical legal societal and disability justice rights concerns that have arisen in regard to this hotly debated irreversible practice Canada now provides more state facilitated euthanasia and assisted suicide than any other country This volume puts forth critical reflections and valuable insights as more jurisdictions consider their own assisted dying laws and policies
