Mexican Devotional Retablos Joseph F. Chorpennig, 1994 A Century of Retablos Charles M. Carrillo, Thomas J. Steele, 2007 In recent years tremendous attention has been focused on the Arts of 18th and 19th century New Mexico This colonial period benefited from a creative and religious community that populated the region Retablos painted panels depicting saints worshiped in churches and private homes were an important part of the rich culture The Lyon Collection beautifully illustrates the breadth of Retablo painting by examining specific Santo s stylistic development as well as the iconography and social history of each painting This landmark publication will be of great use to the ongoing study of colonial southwestern art and history 107 colour illustrations **Art and Faith in Mexico** Elizabeth Netto Calil Zarur, Charles Muir Lovell, 2001 Studies retablos Mexican paintings on tin created in the latter half of the nineteenth century from art religious and historical perspectives and discusses efforts made to restore and conserve the artwork Sanctuaries of Earth, Stone, and Light Gloria Fraser Giffords, 2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain s indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches *The Mystical Gesture* Robert Boenig, 2018-05-08 This title was first published in 2000 These essays explore the spiritual culture shared by texts and writers in Western Europe from the 13th to 17th centuries the visionaries mystics and nuns who were poets or scholars and the creative writers who drew on spiritual themes The topics range chronologically from the late 13th to late 17th centuries and geographically from Germany England Italy France Spain and New Spain Mexico though the volume s centre is the spiritual culture of 16th century Spain Common concerns of each essay are the exploration of spiritual culture how some texts and writers shape expectations

attending the life of the spirit and how they are in turn shaped by them The sub themes many of the essays share are the gendering of spiritual culture and the relationship between traditional literary genres like poetry and drama and spiritual discourse Each text or spiritual figure covered here has a distinctive spiritual voice a mystical gesture that contributes an individual mysticism to the common spiritual culture they all share Each scholar in her or his own way defines this mystical gesture The essays analyze Mechthild von Magdburg Piers Plowman The Second Shepherds Play Catherine of Siena Bernardo de Laredo Teresa of Avila Alonso de la Fuente Luisa de Carvajal y Mendoza Cecilia de nacimiento Margaret Mary Alaconque and Sor Juana

The Art of Maria Tomasula Soo Y. Kang, 2022-11-15 Maria Tomasula's still life paintings are absolutely captivating dramatizing luscious objects of saturated colors and meticulous details through the spotlight effect against a dark backdrop Beyond their immediate appeal however the still lifes usually contain disturbing features such as flowers being sharply pierced by hooks and nails or isolated body parts such as bones and organs that seem to be fiercely alive Although the pictures are materialistically appealing due to the illusionistic style of the artist they lend themselves to a depth of iconography that has not been accounted for in previous writings on her art This book is the first comprehensive monograph on Tomasula b 1958 unraveling her complex iconography that is founded on her Mexican American heritage and Catholicism but also tracing the European still life tradition It shows that her paintings reflect her feminist and philosophical leanings influenced by various intellectuals including Baruch Spinoza Gilles Deleuze and the proponents of New Materialism Her still life converges the old with new interests it pays tribute to traditional Mexican and European motifs but also reflects ideas and mannerism that speak to the contemporary audience This research evidences the complexity of the Mexican American experience which merges divergent cultural and ideological perspectives from Latin America North America and Europe in varied ways for different and unique individuals
