Monkey In The Rocket:

The Monkey in the Rocket Jean Bethell,1962 *Monkey in the Rocket* J. Bethell,1985-06 **A Monkey's Tale** Nathan Kravetz,2012-12-05 A Monkeys Tale by Nathan Kravetz It was a moonlit night at the rocket base For weeks the scientists had been preparing for the launching of a new rocket Reporters were standing by On this night everyone was asleep except the guard who carefully kept watch Suddenly there was a roar that grew louder and louder and the rocket began to lift off its pad Its going up shouted the guard Its blasting off yelled the scientists What Where called the reporters as they climbed out of their beds Who Why When and how Inside the capsule Sam the monkey was pulling switches and pushing buttons as he had been taught Everything was according to plan except that the rocket had not been launched by the scientists but by another monkey Sarah But this is only the beginning What happens is important to the whole world and makes a tale of a monkey that is full of fun **The Monkey in the Rocket ... Pictures by Sergio Leone, Etc** Jean Bethell,1966 *Monkey Game Development* Michael Hartlef,2012-01-01 The first two chapters will provide you with grounding in Monkey In each subsequent chapter you will create a complete game deployable to either iOS Android HTML5 FLASH OSX Windows and XNA The last chapter will show you how to monetize the games so you can be commercially successful in the app development world Do you want to quickly create games deployable to all the major desktop and mobile platforms if so look no further You will learn how to utilize the highly versatile Monkey compiler to create 2d games deployable almost anywhere No game development or programming experience is required **The Smoke in Our Eyes** James Grady,2024-11-21 Grady s style is loose colorful challenging and fun I sometimes thought of Orwell s novel 1984 sometimes of the Dylan song Desolation Row Patrick Anderson The Washington Post Grady is a master of intrigue John Grisham Set in 1959 the year the music died The Smoke in Our Eyes is a cinematic clock ticking saga set in a small Montana town When a fatal car accident shatters ten year old Lucas s world he finds himself confronting crime and vengeance humour and heroism all against the backdrop of growing up Alongside the tightly written drama of Lucas and his family Grady author of the classic Condor series evokes a heady mood and sense of place From the Space Race and the first warnings of global climate change to the brutal racism of segregation and the hope of a new generation to move us forward The Smoke in Our Eyes is a fresh rending of rural noir that captures both an intimate story and the volatility of mid century America **Monkey and the Mystery of the Missing Whale Jaw** Ian Emerson,2011-09-01 While on the train home from Edinburgh Monkey reads a strange article in the paper that describes the disappearance of the famous whale jaw from the top of Berwick Law in North Berwick That weekend he and his adopted parents Ian and Doreen set off for the coast on a trip that will lead Monkey into extreme danger but reveal what has happened to his real parents Staying in the picturesque seaside town of Gullane Ian takes Monkey to see Concorde at the nearby East Fortune air museum where they learn that a very large exhibit has been stolen That evening they see on TV that the missing whale jaw has now been replaced Monkey is now

extremely suspicious a missing whale jaw that has suddenly been replaced and a stolen rocket from the nearby air museum Micro lights flying all over the place add to the fact that something extremely mysterious is underfoot Monkey sets off to investigate only to end up in mortal danger from forces that are set on using him in an absurd experiment What is hidden inside the lighthouse on an island in the middle of the River Forth What will Monkey find that will make his dreams come true but hurl him into a nightmare situation and who are the Bad Scientists Monkey and the Mystery of the Missing Whale Jaw is the third book in the A Dark Monkey Tale series It will appeal to children from 5 10 years **Albert II: 1st Monkey**

in Space Joeming Dunn,2011-09-01 Animals have been an influential part of science technology and travel throughout time Albert II The 1st Monkey in Space introduces readers to the historical climate of the 1920s through 1950s background on Albert II a chronology of Albert s trip into space and how that mission influenced history Colorful graphic art diagrams of rockets history on the Space Race fast facts and a glossary will bring the historic mission to a younger audience A great supplement to your history graphic novel collection **Laika's Window** Kurt Caswell,2018-09-18 Laika began her life as a

stray dog on the streets of Moscow and died in 1957 aboard the Soviet satellite Sputnik II Initially the USSR reported that Laika the first animal to orbit the earth had survived in space for seven days providing valuable data that would make future manned space flight possible People believed that Laika died a painless death as her oxygen ran out Only in recent decades has the real story become public Laika died after only a few hours in orbit when her capsule overheated Laika s Window positions Laika as a long overdue hero for leading the way to human space exploration Kurt Caswell examines Laika s life and death and the speculation surrounding both Profiling the scientists behind Sputnik II he studies the political climate driven by the Cold War and the Space Race that expedited the satellite s development Through this intimate portrait of Laika we begin to understand what the dog experienced in the days and hours before the launch what she likely experienced during her last moments and what her flight means to history and to humanity While a few of the other space dog flights rival Laika s in endurance and technological advancements Caswell argues that Laika s flight serves as a tipping point in space exploration beyond which the dream of exploring nearby and distant planets opened into a kind of fever from which humanity has never recovered Examining the depth of human empathy what we are willing to risk and sacrifice in the name of scientific achievement and our exploration of the cosmos and how politics and marketing can influence it Laika s Window is also about our search to overcome loneliness and the role animals play in our drive to look far beyond the earth for answers

The Day the Universe Exploded My Head Allan Wolf,2019-03-05 Hang on tight for a raucous bounce through the solar system and back propelled by funny fanciful factually sound poems and exuberant illustrations The universe poured into me My brain was overloaded It smoked and glowed red hot And then it actually exploded Ever wonder what the sun has to say about being the closest star to Earth Or what Pluto has gotten up to since being demoted to a dwarf planet Or where rocket ships go when they retire Listen closely because maybe just maybe your head will explode too With poetry that is equal parts

accurate and entertaining and illustrations that are positively out of this world this book will enthrall amateur stargazers and budding astrophysicists as it reveals many of the wonders our universe holds Space travelers in search of more information will find notes about the poems a glossary and a list of resources at the end **Aeronautics and Space Bibliography for the Elementary Grades** United States. National Aeronautics and Space Administration,1963 *Human Spaceflight* Joseph A. Angelo,2014-05-14 Presents an introduction to human space exploration discussing the evolution of space technology that has allowed the human race to go from merely orbiting the Earth to landing on the Moon and living for months in a space station **Animals in Space** Colin Burgess,Chris Dubbs,2007-07-05 Many readers will doubtless be astonished to learn that animals were being fired aloft in U S and Soviet research rockets in the late 1940s In fact most people not only believe that the Russian space dog Laika was the first canine to be launched into space but also that the high profile precursory Mercury flights of chimps Ham and Enos were the only primate flights conducted by the United States In fact both countries had sent literally dozens of animals aloft for many years prior to these events and continued to do so for many years after Other latter day space nations such as France and China would also begin to use animals in their own space research Animals in Space will explain why dogs primates mice and other rodents were chosen and tested at a time when dedicated scientists from both space nations were determined to establish the survivability of human subjects on both ballistic and orbital space flights It will also recount the way this happened the secrecy involved and the methods employed and offer an objective analysis of how the role of animals as spaceflight test subjects not only evolved but subsequently changed over the years in response to a public outcry led by animal activists It will explore the ways in which animal high altitude and space flight research impacted on space flight biomedicine and technology and how the results both successful and disappointing allowed human beings to then undertake that same hazardous journey with far greater understanding and confidence This book is intended as a detailed yet highly readable and balanced account of the history of animal space flights and the resultant application of hard won research to space technology and astrobiology It will undoubtedly become the ultimate authority on animal space flights **A Ball, a Dog, and a Monkey** Michael D'Antonio,2007-09-18 From Pulitzer Prize winning author DAntonio comes this memorable account of the first year of the space race with all its panic explosions rivalries and comic escapades Eight pages of b w photographs **To the Stars** Ron Miller,2025-09-09 At NASA our eyes are not just focused on the stars but also fixated on the sky NASA Administrator Bill Nelson NASA s future will continue to be a story of human exploration technology and science We will continue to try to answer the question Are we alone NASA In 1915 the US Congress created the National Advisory Committee for Aeronautics NACA The committee s first goal was to support the development of aviation But in the wake of the space race with the Soviet Union that began in the late 1950s NACA became NASA the National Aeronautics and Space Administration From novel technology to international collaboration to scientific research NASA has become a global leader in space exploration It even enabled people to walk on the moon for the first time But how
