Mixed Blessing Hazel McFerson,2001-12-30 Invidious distinctions on the basis of race and overt racism were central features in American colonial policy in the Philippines from 1898 to 1947 as America transported its domestic racial policy to the island colony This collection by young Filipino scholars analyzes American colonialism and its impact on administration and attitudes in the Philippines through the prism of American racial tradition a structural concept which refers to beliefs attitudes images classifications laws and social customs that shape race relations and racial formation in multiracial and colonial societies The dominance of this tradition was manifested in the wanton prerogatives of the U S Congress and others who helped to carry out colonial policy in the region The Spanish flexible racial tradition had resulted in a system based on ethnicity and class as determinants of social and economic structure while the rigid U S racial tradition assigned race the more dominant role The cultural affinity between the early individual American administrators and the Filipino elite however meant that class based distinctions in the islands were not broken up Thus the extreme elitist character of the Philippines economy and society persisted and became impervious to the influences which in other Asian countries led to a progressive weakening of elite structures as the 20th century advanced Political Strategies and Social Movements in Latin America

Leonidas Oikonomakis,2018-07-12 This book investigates how social movements form their political strategies in their quest for social change and when they shift from one strategy to another why and how that happens The author creates a model which distinguishes between two different roads to social change one that passes through the seizure of state power and one that avoids any relationship with the state Comparing the cases of two Latin American social movements the Zapatistas in Mexico and the Bolivian Cocaleros the volume argues that strategic choices are often decided upon through similar mechanisms Ideal for a scholarly and non specialist audience interested in Mexican and Bolivian politics revolutions and Latin American and social movement studies **Yaqui Indigeneity** Ariel Zatarain Tumbaga,2018-03-27 Examines representations of the transborder Yaqui people as interpreted through the writing of Spanish Mexican and Chicana o

Middleton,2019-09-03 Analyzes textbooks in the Dominican Republic for evidence of reproducing Haitian Otherness
 Unmastering the Script Education Critical Race Theory and the Struggle to Reconcile the Haitian Other in Dominican Identity examines how school curriculum based representations of Dominican identity navigate black racial identity its relatedness to Haiti and the culturally entrenched pejorative image of the Haitian Other in Dominican society Wigginton and Middleton analyze how social science textbooks and historical biographies intended for young Dominicans reflect an increasing shift toward a clear and public inclusion of blackness in Dominican identity that serves to renegotiate the country's long standing antiblack racial master script The authors argue that although many of the attempts at this inclusion reflect a lessening of black denial when considered as a whole the materials often struggle to find a consistent and coherent narrative for the place of blackness within Dominican identity particularly regarding the ways in which blackness continues to be meaningfully related to the otherness of Haitian racial identity Unmastering the Script approaches the text materials as an example of reconstructing and unburying an African past supporting the uneven slow and highly context specific nature of the process This work engages with multiple disciplines including history anthropology education and race studies building on a new wave of Dominican scholarship that considers how contemporary perspectives of Dominican identity both accept the existence of an African past and seek to properly weigh its importance The use of critical race theory as the framework facilitates unfolding the past political and legal agendas of governing elites in the Dominican Republic and also helps to unlock the nuance of an increasingly black inclusive Dominican identity In addition this framework allows the unveiling of some of the socially damaging effects the Haitian Other master script can have on children particularly those of Haitian ancestry in the Dominican Republic
