Marx and Contemporary Scientific Thought International Council for Philosophy and Humanistic Studies, Paris> Symposium on the Role of Karl Marx in the Development of Contemporary Scientific Thought, 2022-09-06 No detailed description available for Marx and Contemporary Scientific Thought

History of Linguistics 1996 David Cram, Andrew R. Linn, Elke Nowak, 1999-12-15 The papers in this volume present a colourful picture of the range of research currently being undertaken in the field of the history of linguistics with contribution both from established scholars and from younger researchers The volume is organised on a geographical basis with sections devoted to a number of different traditions in linguistics world wide The opening section is concerned with a number of general and methodological topics ranging from the notion of revolution in linguistic historiography to the history of the study of ape language The second section is devoted to missionary linguistics an umbrella category for the early contacts of Europeans with non European languages Subsequent sections address individual traditions in linguistics III The Celtic Tradition IV The Chinese Tradition V The Georgian Tradition VI The Hebrew Tradition VII The Japanese Tradition VIII The Persian Tradition IX The Russian Tradition X The Tamil Tradition

Georges Canguilhem and the Problem of Error Samuel Talcott, 2019-05-15 Examining Georges Canguilhem's enduring attention to the problem of error from his early writings to Michel Foucault's first major responses to his work this pathbreaking book shows that the historian of science was also a centrally important philosopher in postwar France Samuel Talcott elucidates Canguilhem's contributions by drawing on previously neglected publications and archival sources to trace the continuity of commitment that led him to alter his early anti vitalist pacifist positions in the face of political catastrophe and concrete human problems Talcott shows how Canguilhem critically appropriated the philosophical work of Alain Bergson Bachelard and many others while developing his own distinct writings on medicine experimentation and scientific concepts in an ethical and political endeavor to resist alienation and injustice And while suggesting Canguilhem's sometimes surprising philosophical importance for a range of younger thinkers the book demonstrates Foucault's own critical allegiance to Canguilhem's spirit techniques and investigations

Dismemberment in Drama / Dismemberment of Drama Lance Norman, 2021-02-03 Dismemberment in Drama Dismemberment of Drama is an essay collection which considers the dramatic possibility contained in the images and narratives of dismemberment frequently recurring on the western stage The Classical Tragedies of Sophocles and Euripides the Romanticism of Kleist the surrealism of Artaud and the contemporary drama of Suzan Lori Parks and Marina Carr are just some of the fractured and fragmented bodies analyzed in this collection Both individually and in concert the contributors ask what a dismembered body means Such an inquiry allows them to confront dismemberment as a theoretical category which understands such twentieth century innovations as the Theatre of Cruelty the Epic Theatre the Open Theater and documentary theatre as part of a long dramatic tradition Dismemberment in drama examines the tenuous bond between representation and the object being represented by

highlighting the dismemberment of drama as a form that occurs during drama's repeated theorizations of its own enactment
There is a conflict between disintegration and unity inherent in mimesis theatrical phenomenology and performance

Documents of the Senate of the State of New York New York (State). Legislature. Senate,1873 *Annual Report of the Trustees of the State Library* New York State Library,1873 **Annual report** New York State Library (Albany, NY),1873

Annual Report New York State Library,1873 From 1889 to 1918 the reports consist of the Report of the director and appendixes which from 1893 include various bulletins issued by the library Additions Bibliography History Legislation Library school Public libraries These including the Report of the director were each issued also separately *In the Vale of Tears* Roland Boer,2013-10-10 Winner of the 2014 Isaac and Tamara Deutscher Memorial Prize In the Vale of Tears brings to a culmination the project for a renewed and enlivened debate over the interaction between Marxism and religion It does so by offering the author's own response to that tradition It simultaneously draws upon the rich insights of a significant number of Western Marxists and strikes out on its own Thus it argues for the crucial role of political myth on the Left explores the political ambivalence at the heart of Christianity challenges the bent among many on the Left to favour the unexpected rupture of kair's as a key to revolution is highly suspicious of the ideological and class alignments of ethics offers a thorough reassessment of the role of fetishism in the Marxist tradition and broaches the question of death unavoidable for any Marxist engagement with religion While the book is the conclusion to the five volume series The Criticism of Heaven and Earth it also stands alone as a distinct intervention in some burning issues of our time *Proceedings of the Edinburgh Mathematical Society* Edinburgh Mathematical Society,1910 **The Unity of the Senses** Lawrence E. Marks,2014-05-10 Academic Press Series in Cognition and Perception The Unity of the Senses Interrelations Among the Modalities focuses on the perceptual processes approaches and methodologies involved in studies on the unity of the senses The publication first elaborates on the doctrines of equivalent information analogous sensory attributes and qualities and common psychophysical properties Discussions focus on discrimination sensitivity sound symbolism intensity brightness and cross modal perception of size form and space The text then examines the doctrine of neural correspondences and sound symbolism in poetry including sound and meaning analogue and formal representation vowel symbolism in poetry coding perceptual information coding sensory attributes and evolution and development The manuscript takes a look at synesthetic metaphor in poetry as well as unity of the senses and synesthetic metaphor warm and cool colors synesthetic metaphors of odor and music metaphorical imperative and the music of Conrad Aiken The publication is a valuable source of data for researchers interested in the unity of the senses American Journal of Science ,1871 *The American Journal of Science and Arts* ,1871 *The American Journal of Science* ,1871 The American journal of science and arts American Journal of Science and Arts ,1871 *Economic Life Beyond Economists* Abderrazak Belabes,2024-08-12 Through an examination of the work of great scholars from fields including philosophy literature philology semiology quantum physics history and anthropology this book argues that building

on the contribution of non economists can open new areas of reflection in economics beyond the usual schools of thought The purpose of the book is twofold First it offers a critique and discussion of the limits of contemporary economic discourse both mainstream and self styled alternative theories The central theme on which the book is built is that the discipline of economics fails to examine the nature of social reality in a systematic way This prompts the economists to become fully aware of the methodology on which they base their representation analysis and argumentation in a way that economists currently are not Second the book proposes alternative ways of thinking that can help readers of economics to overcome the current limitations of their discipline This means going beyond various dominant dualities orthodox heterodox micro macro epistemology ontology because it is not a question of doing the economy differently but of overcoming the economy as a representation of the world that strives to submit everything to its realm Thus the book does not simply propose a broader conceptual framework than that portrayed by mainstream economists or those who propose an alternative approach but raises questions that do not usually come from the minds of economists at all The book will be of particular interest to readers of economic methodology and pluralism philosophers of science and other social scientists interested in methodological issues

Books in Print, 1991 *Tristan Tzara and Mário de Andrade's Journeys from Ethnography to the Avant-Garde* Nefeli Zygopoulou, 2021-05-14 This book presents a comparative study of Tristan Tzara 1896 1963 and M rio de Andrade 1893 1945 analysing their contributions to oral language traditions and to the body of criticism on modernism This is the first work to offer an analysis of Tzara s posthumously published prose *Personnage d insomnie* and the first in the English language that explores de Andrade s libretto for the opera *Caf* as well as other examples of their poetry and prose The Romanian Jewish poet and writer Tzara later a naturalised French citizen became a central figure in the European avant garde from 1916 when he took part in the Dada Movement Mario de Andrade the Brazilian poet writer and musicologist of mixed origins was a contemporary of Tzara and a similarly central figure in the 1922 S o Paulo Modern Art Week that defined Brazilian Modernism Both emerged from very different backgrounds but they followed a parallel creative path This book discusses their research and adaptation of various language manifestations ethno poetics and folk traditions that led them to the creation of distinct and individual styles The historical and socio political events of the late 1930s would later prompt both authors to develop militant poetics Through chronologically compatible case studies the reader will discover that Tzara and de Andrade alongside their playful language actively criticised cultural imperialism and advocated against hate *Journeys* can be physical and intellectual they can crisscross leave traces and overlap This book takes the reader from two starting points a small Romanian town in the foothills of the Carpathians and a two storey house in an unusually tranquil street in S o Paulo Brazil to the heart of the twentieth century avant garde As it shows Tristan Tzara and M rio de Andrade traversed borders and geographical points and their poetics meet in Mozambique Parisian caf s and Bantu chants

A Companion to the Philosophy of Education Randall Curren, 2008-04-15 A Companion to the Philosophy of Education is a comprehensive

guide to philosophical thinking about education Offers a state of the art account of current and controversial issues in education including issues pertaining to multiculturalism special education sex education and academic freedom Written by an international team of leading experts who are directly engaged with these profound and complex educational problems Serves as an indispensable guide to the field of philosophy of education

The West Georgios Varouxakis, 2025-07-08 A comprehensive intellectual history of the idea of the West How did the West come to be used as a collective self designation signaling political and cultural commonality When did Westerners begin to refer to themselves in this way Was the idea handed down from the ancient Greeks or coined by nineteenth century imperialists Neither writes Georgios Varouxakis in *The West* his ambitious and fascinating genealogy of the idea The West was not used by Plato Cicero Locke Mill or other canonized figures of what we today call the Western tradition It was not first wielded by empire builders It gradually emerged as of the 1820s and was then Varouxakis shows decisively promoted in the 1840s by the French philosopher Auguste Comte whose political project incidentally was passionately anti imperialist The need for the use of the term the West emerged to avoid the confusing or unwanted consequences of the use of Europe The two overlapped but were not identical with the West used to differentiate from certain others within Europe as well as to include the Americas After examining the origins Varouxakis traces the many and often astonishingly surprising changes in the ways in which the West has been understood and the different intentions and consequences related to a series of these contested definitions While other theories of the West consider only particular aspects of the concept and its history if only in order to take aim at its reputation Varouxakis's analysis offers a comprehensive account that reaches to the present day exploring the multiplicity of current and not least prospective future meanings He concludes with an examination of how since 2022 definitions and membership of the West have been reworked to consider Ukraine as the evolution and redefinitions continue
