Off Into Space:

Living Off the Land in Space C Bangs, Gregory Matloff, Les Johnson, 2007-06-06 This book presents a visionary concept for future development of space travel It describes the enabling technology for future propulsion concepts and demonstrates how mankind will live off the land in space in migration from Earth For the next few millennia at least barring breakthroughs the human frontier will include the solar system and the nearest stars Will it be better to settle the Moon Mars or a nearby asteroid and what environments can we expect to find in the vicinity of nearby stars These are questions that need to be answered if mankind is to migrate into space

The Quirks & Quarks Guide to Space Jim LeBans, 2008-02-19 For everyone who's curious about what's new under and over and around the stars Douglas Adams famously pronounced in *The Hitchhiker's Guide to the Galaxy* that the answer to life the universe and everything was 42 Quirks Quarks whose approach to science owes almost as much to Adams as it does to Newton or Einstein or Hawking have flipped that notion through a gap in the space time continuum or something like that and come up with answers to the 42 essential questions about space Much about the universe is very hard for most of us to grasp and if anyone can explain these mind bending aspects of the heavens above it's the Quirks Quarks producers who have been bringing Canadians understandable science with trademark humour for more than thirty years In their *Guide to Space* they answer such pressing questions as Where does space begin Why is most of the universe missing Is there intelligent life in the universe And the real puzzler What came before the Big Bang They also answer questions we wish we'd thought to ask such as Can you surf a gravity wave and Why is the universe's temperature on my TV There are answers as well to far more practical questions like What happens when you fall into a black hole and How will the universe end The answers which have been vetted by a team of astronomers are witty authoritative in depth accurate up to date astronomically and of course quirky

Soviets in Space Colin Burgess, 2022-08-08 A beautifully illustrated history of the Soviet Union's leading role in the space race In this deeply researched chronology Colin Burgess describes the then Soviet Union's extraordinary success in the pioneering years of space exploration Within a decade the Soviets not only launched the world's first satellite Sputnik in 1957 but they also were the first to send an animal and a human being into Earth orbit In the years that followed their groundbreaking missions sent a woman into space launched a three man spacecraft and included the first person to walk in space Six decades on from the historic spaceflight of cosmonaut Yuri Gagarin Burgess guides us through the amazing achievements of Russia's spaceflight program through to the present day introducing the men and women who have flown the missions that drive us to delve ever deeper into the wonders and complexities of the cosmos
