Political Parties In The New Europe:

Political Parties in the New Europe Kurt Richard Luther, Ferdinand Müller-Rommel, 2002 The scope and intensity of the challenges currently faced by western European political parties is exceptionally large threatening the viability of the manner in which they have traditionally operated and causing them to seek new behaviours and strategies This volume brings together some of the foremost scholars of European party politics whose evaluation of political parties in the new Europe is organised under four broad headings Parties and Society Parties as Purposive Organisations Parties and National Government and Parties the Nation State and Beyond The contributors review the latest empirical findings and provide a concise critical review of the theoretical and methodological state of the art They also highlight the analytical challenges confronting party researchers and suggest new avenues for party research

Governing the New Europe Jack Ernest Shalom Hayward, Edward Page, 1995 *Governing the New Europe* provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War Exploring the variations of liberal democracy and market economy among the European states as well as current trends in these directions the contributors to this volume all leading authorities in European politics consider whether a common political model has begun to emerge out of historic European diversity Beginning with a discussion of the political economic and cultural development of Europe from a historical perspective the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition Further essays analyze the challenge to national party systems and electoral performance from emerging social movements and organized interest groups Political and bureaucratic structures are also examined as is the new European constitutionalism reflected in the increasingly significant role of the judiciary Lastly attention is turned to several major themes in European politics the changing foundations of foreign and security policy the function of industrial champion firms and the retreat from the welfare state Primarily comparative in its scope *Governing the New Europe* does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non member countries Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states *Governing the New Europe* will become one of the standard texts in its field

The Politics of the New Europe Ian Budge, Kenneth Newton, 2014-01-21 A pioneering textbook which explains the dynamics of politics across Europe in the post Cold war era Comparing democratisation transition to a market economy and increasing economic and political integration in the countries of central and eastern Europe with experiences in Scandinavia and southern and western Europe the book provides a wealth of information and analysis on the state of Europe at the end of a momentous century of European and World history

Immigration and Politics in the New Europe Gallya Lahav, 2004-04-22 With almost a quarter of the world's migrants Europe has been attempting to regulate migration and harmonize immigration policy at the European level. The central dilemma exposed is how liberal democracies can reconcile the need to control the movement of people with the desire to promote open borders, free markets and liberal standards. Gallya Lahav's book traces ten years of public opinion and elite attitudes toward immigration cross nationally to show how and why increasing EU integration may not necessarily lead to more open immigration outcomes. Empirical evidence reveals that support from both elite and public opinion has led to the adoption of restrictive immigration policies despite the requirements of open borders. Unique in bringing together original data on European legislators and national elites, longitudinal data on public opinion and institutional and policy analyses, this 2004 study provides an important insight into the processes of European integration and globalization more broadly.

Party Government in the New Europe Hans Keman, Ferdinand Muller-Rommel, 2012-05-31 This truly comparative volume examines the life cycle of party governments in Europe from 1990 onwards and analyses its role and function in contemporary European parliamentary democracies. The life and the performance of party governments in Europe became more and more volatile and publicly contested. In some cases it has even challenged the democratic quality of the state. This book presents comparative analyses of party governments from formation and duration to performance. It brings together some of the foremost scholars researching on party government to evaluate existing theories and compare both the developments in the Western and the new Eastern Europe in an empirically grounded comparative analysis. The book discusses the interaction between various institutions, political parties and policies and evaluates how institutional change and party behaviour can drive the life cycle of party government. *Party Government in the New Europe* will be of interest to students and scholars of Comparative Politics, Democracy, Government and European Politics.

Negotiating Diplomacy in the New Europe Stefanos Katsikas, 2011-10-30 Bulgaria has faced previously unimaginable pressures over the last two decades as it struggles to adapt to a post-Communist landscape and to reform both state and society in the wake of the fall of the Soviet Union while facing the challenge of increased efforts by NATO and the EU to expand into this region. In *Negotiating Diplomacy in the New Europe* Stefanos Katsikas sheds new light on the mechanisms and factors which have influenced the making and shaping of Bulgarian foreign policy, examining the extent to which both domestic factors and the international environment have affected its trajectory. Following the promulgation of Gorbachev's now famous policies of glasnost and perestroika and the fall from power of the Bulgarian Communist Party led at the time by Todor Zhivkov, many have directly attributed Bulgaria's changes in foreign policy to the processes of democratization witnessed throughout Eastern Europe. However, although this was to some extent the case, the commonalities shared with the country's foreign policy during the Cold War era leave in question the extent to which the effects of democratization alone suffice to explain Sofia's post-communist diplomatic and strategic policies. By analysing the influencing factors of Bulgaria's foreign policy

since 1989 Katsikas considers factors such as domestic policies as well as the effects of EU and NATO efforts to expand their influence and membership Rich in primary sources including personal interviews with key protagonists who have dominated foreign policy making in both communist and post communist Bulgaria *Negotiating Diplomacy in the New Europe* examines the shift of foreign relations not only within the context of post Cold War democratization but also the country's integration into wider Euro Atlantic frameworks It thus holds invaluable analysis for researchers of Europe's post communist international relations as well as those interested in the processes of democratization and those of foreign policy formation

Separatism and Sovereignty in the New Europe Janet Laible, 2008-11-23 This book investigates why despite European integration separatist nationalism continues to thrive in EU member states Laible demonstrates that the EU sustains the importance of statehood and therefore separatism and creates new forms of political capital that nationalists employ in their struggles for self government

Democratic Party ODS Sen Hanley considers the different varieties of right wing politics that emerged in post communist Europe exploring in particular detail the origins of the Czech neo liberal right tracing its genesis to the reactions of dissidents and technocrats to the collapse of 1960s reform communism He argues that rather than being shaped by distant historical legacies the emergence of centre right parties can best be understood by examining the responses of counter elites outside or marginal to the former communist party state establishment to the collapse of communism and the imperatives of market reform and decommunization This volume goes on to consider the emergence of right wing forces in the disintegrating Civic Forum movement in 1990 the foundation of the ODS the right s period in office under Klaus in 1992-97 and its subsequent divisions and decline It concludes by analyzing the ideology of the Czech Right and its growing euroscepticism

Human Rights in the New Europe David P. Forsythe, 1994-01-01 I The global setting **The New Europe**, 1917

The Europeanization of National Political Parties Thomas Poguntke, Nicholas Aylott, Elisabeth Carter, Robert Ladrech, Kurt Richard Luther, 2007-02-12 This is a detailed exploration of how national political parties have responded to the increasing relevance of European governance The Europeanization of National Political Parties is the first empirical study to examine the effects of the European Union on the internal organizational dynamics of national political parties It draws on the results of a major cross national project and is based on documentary analysis and some 150 interviews with senior party actors in six EU member states Austria Britain France Germany Spain and Sweden Situated in the context of the debate on Europeanization the contributors illustrate that national political parties have been surprisingly well equipped to handle the challenges of the increasing importance of multi level governance in Europe Following a rigorous analytical framework the country studies examine thirty relevant political parties and systematically address a clearly defined set of empirical questions The volume ends with two comparative chapters that analyze the findings from a cross national perspective and that offer theoretical insights into the problems of party government amid increasing European integration This text will appeal to all those researching in the fields of European studies political science and comparative politics

Ideological Flexibility of Political Parties in the Era of Transnational Cleavage Alessio Scoppelliti, 2025-02-04 This book provides a comprehensive analysis of how the parties of Lega and Rassemblement National have adjusted their ideologies over a four decade period to adapt to the new transnational cleavage in Western Europe the conflict between pro EU and anti EU sentiments It sheds light on their ability to change ideological positions policy stances and adopt strategic shifts in response to the evolving political landscape Drawing from a rich array of sources the book challenges the perception of established radical right parties as inflexible revealing their significant ideological adaptability As such it offers a richer understanding of

the dynamics within the radical right party family This book is of key interest to scholars and students of Euroscepticism the Radical Right party politics and more broadly to European and comparative politics **The New European Criminology** Vincenzo Ruggiero, Nigel South, Ian Taylor, 2002-09-11 The New European Criminology gathers together leading criminologists from all over Europe to consider crime and responses to crime within and across national borders For the first time it allows students to experience the most exciting work in European criminology and to compare approaches to crime in different parts of Europe The five sections of the book look at the effects of European harmonisation on crime criminal justice law enforcement and penal reform organised crime from the Mafia in Italy to drug running in the Balkans local crime in international contexts possible future directions for criminology and some suggestions for a new criminology of war

Political Parties and the Crisis of Democracy Thomas Poguntke, Wilhelm Hofmeister, 2024-06-25 Democracy is in decline and the share of world's population living in freedom under democratic government has decreased considerably as authoritarian practices proliferate Surprisingly most of the analyses that study these developments give little attention to the role of political parties in the decline of democracy although there is a broad consensus about the relevance of political parties for the functioning of democracy How parties can contribute to democracy is best understood by looking at a very diverse range of cases in different parts of the world Instead of taking a regional approach which dominates the literature on political parties this volume takes a global perspective It brings together experts from four continents which opens up fresh comparative perspectives on the role of political parties in the democratic process Political Parties and the Crisis of Democracy asks how parties contribute to the consolidation of democracy why they fail today why new parties emerge and displace old parties and also what parties need to do in order to survive cutthroat competition above all with a new and sometimes not so new variants of populist parties It takes a unique global focus covering old and new democracies in different regions of the world It covers Western and Central Europe Asia Pacific Latin America and Africa Turkey and Israel including presidential semi presidential and parliamentary democracies and also some countries where democracy is seriously threatened or eroding This volume offers unique comparative perspectives combined with a detailed analysis of individual countries and their party systems It shows that parties are central actors for the consolidation of democracy but that organisational reforms are necessary to cope with social change such as individualisation the decline in party membership and the impact of new media and modern communication thus counteracting the fragmentation of party systems and the decay of democracy This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations **Political Parties and Interest Groups in Norway** Elin Haugsgjerd Allern, 2024-10-31 How do today's political parties relate to other organisations Do they prefer rather distant relationships with a wide range of interest groups or have they virtually detached themselves from civil society altogether Scholars seem to agree that traditionally close relationships

such as those between social democratic parties and trade unions have grown weaker since the 1960s. But to date only limited systematic research has been conducted. While parties and interest groups attract a great deal of attention from political scientists, the links between them have been largely overlooked. This book is an attempt to bridge the gap, starting from the party side of the relationship. It throws new light on the topic by presenting a theory-driven, comprehensive study of Norway's seven major political parties and their relationships with interest groups at the beginning of the new millennium. Based on original and extensive data, including party documents, in-depth interviews with key players, and a survey of national party elites, Elin Haugsgjerd Allern paints a nuanced picture of the nature and significance of these relationships and the factors that shape them. A major conclusion is that Norway's parties tend to maintain rather distant but wide-ranging relationships with interest groups today. However, some parties still have fairly strong links with their traditional associates and a narrower network of links with other groups. Hence, Allern also shows that significant differences exist between parties that are apparently exposed to the same social, political, and institutional environment.
