Character Actors in Horror and Science Fiction Films, 1930-1960 Laurence Raw,2014-01-10 This biographical dictionary presents a stellar lineup of talented versatile character actors who regularly appeared in horror and science fiction films during Hollywood's golden age Many are well known by genre buffs and casual fans they include Lionel Atwill John Carradine Dwight Frye Rondo Hatton Dick Miller J Carroll Naish Maria Ouspenskaya Glenn Strange Edward Van Sloan and George Zucco Some are perhaps not so well known but equally at home in the horror and science fiction films such as Anthony Carbone Harry Cording Rosemary La Planche Dick Purcell Elizabeth Russell and Mel Welles The 96 entries are complete with a biography and in depth analyses of the actor's best performances demonstrating how important these personalities were to the success of their genre films **1950s Science Fiction Films and 9/11** Melvin E. Matthews,2007 1950s Cold War era monsters meet 21st century terrorists this exploration of sci fi movies examines the similarities and differences between the political environment and popular culture of two eras This examination and appreciation of 1950s science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy It shows that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues For instance Godzilla the only Fifties era monster to remain a movie star beyond that era could be fashioned to reflect whatever issues dominate the times be they nuclear war in the Fifties when Godzilla originated to a Seventies Godzilla film about environmental pollution Conceivably a Godzilla for the age of terrorism is possible Then the 1954 atomic mutation classic is the spiritual ancestor of

the 2002 film *Eight Legged Freaks* The alien invaders of the Fifties signified a Russian invasion of America while other films of the genre such as *Invaders from Mars* depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Finally several Fifties films depicted the end of the world at a time when Americans expected a nuclear war with Russia The immediate pre September 11th era witnessed films presenting galactic threats to mankind s existence *Independence Day* *Deep Impact* *Armageddon* while the early 2000s witnessed the popularity of the *Left Behind* Christian films dramatizing the Tribulation period in the Book of Revelation
