Lucifer in Harness Edwin S. Fussell, 1973-01-01 **Lucifer in Harness** Edwin S. Fussell, 1973 Considers the limitations that the English language and literary tradition have imposed on American efforts to devise new poetic techniques

Lucifer in Harness Edwin S. Fussell, 2015-03-08 For nearly two hundred years the rebellious American poet has been reluctantly harnessed to the English language and literary tradition In a triptych of essays Edwin Fussell attempts to explore the fundamental dilemma of American poetry as it appears in the three crucial fields of meter metaphor and poetic diction the three crucial fields of American poetry taken as a whole most studiously avoided by American scholars but not as I intend to show by American poets Writing in a provocative critical style attuned to the poets he discusses Edwin Fussell explores the dilemma of the American poet who wants to write a distinctly American poetry but must do so in a language imbued with the sensibility of English poetry and culture Because these are different from and sometimes antithetical to American cultural ideals and commitments the harness chafes The emphasis is on those poets who have successfully created a truly American poetry Poe Whitman Pound Eliot and Williams but the author also discusses Hart Crane Wallace Stevens Emerson Bryant Lowell and Frost among others Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **American Studies** Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 **Metaphor** , 1985-01-01 The aim of the present bibliography is to provide the student of metaphor with an up to date and comprehensive albeit not exhaustive overview of recent publications dealing with various aspects of metaphor in a variety of disciplines Where the emphasis is primarily on specific works about metaphor mainly in philosophy linguistics and psychology the list has been supplemented with references to studies where metaphor is explicitly recognized as an instrument of research or analysis e g in literature or in the elaboration of scientific and religious models or where its use is illustrated Sixteen Modern American Authors

Poe and the Remapping of Antebellum Print Culture Jerome McGann, 2012-12-19 Edgar Allan Poe 1809 1849 has long occupied the position of literary outsider Dismissed as unrepresentative of the main currents of antebellum culture Poe commented incisively in fiction and nonfiction on nationalism science materialism popular taste and cultural ideology Opposing the pressure to write nationalistic American tales or from a restricted New England perspective he produced a body of work held in greater international esteem than that of any of his U S contemporaries In *Poe and the Remapping of Antebellum Print Culture* scholars explore Poe's anti-nationalistic Americanism as they redefine the outlines of antebellum print culture and challenge ideas that situate Poe at the margins of national thought and cultural activity The contributors offer fresh perspectives on an often maligned author including essays on Poe's preoccupation with celebrity his fascination with metropolitan crime and mystery his impact as an observer of racial fear his role as an eccentric cultural icon and his fluctuating reputation in our own era They also argue for new digital approaches that facilitate remapping of print culture Contributors Anna Brickhouse Betsy Erkkila Jennifer Rae Greeson Leon Jackson J Gerald Kennedy Maurice S Lee Jerome McGann Scott Peeples Leland S Person and Eliza Richards
